This is my first look at your page, I will be back. It is great. I am looking for the parents of Peyton Charnock Lunsford b.
1774, d. July, 1822, Anson Co., NC. I descend from this Peyton Lunsford through his son Amos Y. Tabor Lunsford b.
1813 Anson Co., NC through his daughter Lucinda Elizabeth Ball Lunsford b. Nov. 1855, Chickasaw Co., Mississippi.
Lucinda married James Knox Polk Holcomb in TX and they lived and died in Central TX. Any information would be
appreciated. Billie Stephenson in TX

Jan 9, 1999 - 17:10 - From: - Lance Bretsnyder lancebret@primary.net

Does anyone have a current e-mail address for Clare Aldridge, the historian for Sir Thomas Lunsford's regiment of foote? I
am unable to send anything to her using her e-mail address of August 1998. Insofar as possible sons of Sir Thomas Lunsford
are concerned, we have all heard of William, Esq. Then there was Edward Lunsford of 1650's Lancaster County, Virginia,
and a John Lunsford who was also in Virginia early on. Edward was probably born in the 1630's since he was a titheable in
Lancaster Co., Virginia, in the late 1650's and appears to have indirect connections to Sir Thomas apart from the similarity of
surnames and geographical proximity in the northern neck of Virginia.

Revolutionary War Patriots from Lincoln County

This plaque, at the Historic Courthouse in Lincoln County at Stanford, lists names of locals who served during the Revolutionary War. It is not a complete list, however. For example, listed on the plaque is Stephen Huston, whose brother Nathan commanded a company under George Rogers Clark. Nathan is not listed on the plaque, but is listed on the muster rolls of Clark's troops, and served as the Lincoln County representative at the KY Constitutional Convention. If you have similar documentation for a Revolutionary War patriot from Lincoln County, please send it along so proper recognition may be afforded to ALL Lincoln County patriots.

The roster of Captain James Downing's Company is available by clicking here . Use your BACK button to return.

Will of John Lunsford

In the name of God Amen I John Lunsford of the County of Northumberland being in health and of sound mind and memory thanks be to God for the same and knowing it is appointed once for all men Temporally to dye and knowing the uncertainty of Death do make and ordain this to be my last Will and Testament revoking all former Wills and Testaments &c heretofore be me made Item I give & bequeath all my worldly estate in the following manner which it hath pleased God to bless me with, after all my just debts and funeral expenses being first paid To wit I give and bequeath unto my nephew Griffin Copedge all my Land in Northumberland County which my father devised to me by his last Will and Testament to him and his heirs forever. Item I give and bequeath unto my nephew Griffen Coppedge my negroe Boy B__ to him and his heirs forever. Item I give and bequeath unto my Niece Sharlotte Copedge my negro man Moses, to her and her heirs forever. Item I give the use of all the remaining part of my estate not already given unto my Sister Wilmouth Copedge during of her natural life and after her death I give & bequeath the same to be equally divided amongst her Children, to wit, Griffin, Sharlott, Lucy and Augustin Copedge to them and their heirs forever. In Testimony whereof I have hereunto put my hand and Seal this seventh Day of December, and in the year of our Lord One thousand seven hundred and ninety two.

John Lunsford

Sign'd Seal'd & acknowledg'd
in the presence of Mosley Nutt.

At a Court of monthly session continued & held for Northumberland County at the Courthouse on Tuesday the 18th of April 1794 This Writing purporting to be the last Will and Testament of John Lunsford deceased was this day offered for proof, and it appearing to the Court by the oath of Mosley Nutt and Richard Lunsford that the same was wholly written by the said John Lunsford the same is ordered to be recorded, Whereupon on the motion of Richard Lunsford a Certificate is granted him for obtaining Letters of Administration on the estate of the said John Lunsford decd. with his said Will annexed in due form he having taken the oath of an Administrator with the Will annexed, and together with Mosely Nutt and John H. Tallen(?) his Securities entered into & acknowledged a Bond in the penalty of six hundred pounds conditioned as the Law directs.

I am looking for any available information regarding:

Joseph A. Cavanaugh

I don't have much information about him. He was married May 14, 1907 to Edith May Boyd in Ann Arbor, Michigan. At the time of the wedding he was living in Big Rapids, Michigan. They had a daughter, Dorothy
Marie Cavanaugh, born August 16, 1908 in Sylvan, Michigan. He and his wife were divorced in 1911. That's all I know. Any information will be greatly appreciated. Thank you very much!

IMPORTANT INFORMATION ABOUT YOUR ORDER

We can only search for a record based on the information you provided in blocks 3-18. The success and accuracy of our search is determined by the the information you provide. Often there are many files for veterans of the same or nearly the same name. If there are five or fewer files for men with the same name as the individual in whom you are interested, we will examine all the relevant files and compare their contents with the information that you have provided us. If the veteran's identity seems obvious, we will furnish you a copy of the file we think is the correct one.

If there are more than five files, we will not make a file-by-file check to see if the information in the numerous files matches that provided for the veteran in whom you are interested. In such cases, we suggest that you visit the National Archives and examine the various files, or hire a professional researcher to examine the files for you. We do not maintain a list of persons who do research for a fee; however, many researchers advertise their services in genealogical periodicals, usually available in libraries.

PLEASE NOTE: When you send more than one form at a time, each form is handled separately. Therefore, you may not receive all of your replies at the same time. Allow a minimum of 8 to 10 weeks for processing your order. Please address inquiries about your order to the General Reference Branch at the address below. More information about the availability of records pertaining to military service or family histories may be found in our free genealogical information leaflets and forms. You may request these, as well as order additional copies of this form, by writing to:

IMPORTANT INFORMATION

Use this form to order photocopies of records of veterans who served in the United States or Confederate armed forces. These records include:

PENSION APPLICATION FILES based on United States (not State) service before World War I.

NOTE: Pensions based on military service for the Confederate States of America were authorized by some Southern States but not by the Federal Government until 1959. Inquiries about State pensions should be addressed to the State archives or equivalent agency at the capital of the veteran's State of residence after the war.

BOUNTY-LAND WARRANT APPLICATION FILES based on United States (not State) service before 1856.

NOTE: Pension or bounty-land warrant application files usually include an official statement of the veteran's military or naval service, as well as information of a personal or genealogical nature. If we find such a file, we send copies of the documents we feel will be most useful to you.

MILITARY SERVICE RECORDS based on service in the United States Army (officers who served before June 30, 1917, enlisted men before October 31, 1912), Navy (officers and enlisted men who served before 1886), Marine Corps (officers and enlisted men who served before 1896), and Confederate armed forces (1861-65). (We cannot provide photocopies of files for veterans whose service terminated less than 75 years ago, however we are usually able to provide certain information from the files).

NOTE: Military service records rarely contain family information. The record of a man's service in any one organization is entirely separate from the record of his service in any other organization. We are ordinarily unable to accurately establish the identity of men of the same name who served in different organizations. If you know that a man served in more than one organization and you desire copies of his military service record, submit a separate form for the service record in each organization.

DO NOT USE THIS FORM TO REQUEST PHOTOCOPIES OF RECORDS RELATING TO SERVICE IN WORLD WARS I OR II OR SUBSEQUENT SERVICE. WRITE TO: NATIONAL PERSONNEL RECORDS CENTER, GSA, (MILITARY PERSONNEL RECORDS), 9700 PAGE BOULEVARD, ST. LOUIS, MO 63132.

When you send more than one form at a time, each order may be handled separately; you may not receive all your replies at the same time.

When we cite from our indexes that we have numerous files for veterans of the name given, we suggest that you visit the National Archives and examine the various files, or hire a professional researcher to examine each file for you. As a matter of policy the National Archives does not perform research for individuals; we are thus unable to make a file-by-file check to see if the information in the numerous files matches the information you have provided. The Board for Certification of Genealogists, 1307 New Hampshire Avenue, NW., Washington, DC 20036, can provide you with the names of persons in the Washington area willing to do research for a fee. Also, genealogical researchers advertise their services in The Genealogical Helper, the most widely circulated genealogical magazine, available in most libraries having a genealogical section, or by subscription from Everton Publishers, P.O. Box 368, Logan, Utah 84321.

When, because of the size of a file, we are unable to provide copies of all documents, we send copies of the documents we feel will be most useful to you. You may order copies of all documents in a file by making such a specific request and authorizing us to bill you at 15¢ per page ($2 minimum).

More information about the availability of armed service records may be found in our free package of genealogical information leaflets and forms, available by writing to the address on the front of this form.

ORDER FOR COPIES OF VETERANS RECORDS

Dear Researcher,

Before completing the form, please read both sides of this page for ordering instructions and general information about the types of records that can be ordered with this form. For more information, please write to: ***General Reference Branch (NNRG-P), National Archives and Records Administration, 7th and Pennsylvania Avenue NW., Washington, DC 20408.***

IMPORTANT INFORMATION ABOUT YOUR ORDER

The success of our search depends on the completeness and accuracy of the information you provide in blocks 3-18 on this form. Please note that each NATF Form 80 is handled separately. When you send more than one form at a time, you may not receive all of your replies at the same time.

Military service records rarely contain family information. Pension application files generally are most useful to those who are doing genealogical research and contain the most complete information regarding a man's military career. We suggest that you first request copies of a man's pension file. You should request copies of a bounty-land warrant file or a military record only when no pension file exists. If the veteran's service was during the Revolutionary War, bounty-land warrant applications have been consolidated with pension application papers. You can obtain both files by requesting the pension file only.

We will copy complete compiled military service and bounty-land application files. When we are unable to provide copies of all pension documents because of the size of a pension application file, we will send copies of the documents we think will be most useful to you for genealogical purposes. Many of the documents in these files are repetitive or administrative in nature. You may order copies of all remaining documents in a file by making a specific request. We will notify you of the cost of the additional copies.

Do NOT use this form to request photocopies of records relating to service in World War I or II, or subsequent service. Write to: *National Personnel Records Center (Military Records), NARA, 9700 Page Boulevard, St. Louis, MO 63132.*

INSTRUCTIONS FOR COMPLETING THIS FORM

Use a separate NATF Form 80 for each file that you request. Remove this instruction sheet. You must complete blocks 3-7 or we cannot search for the file. Print your name (last, first, middle) and address in the block provided at the bottom of the form, which is your mailing label. The information must be legible on all copies. Keep the PINK copy of the form for your records. Mail the remaining three pages of the form to: *General Reference Branch (NNRG-P), National Archives and Records Administration, 7th and Pennsylvania Avenue NW., Washington, DC 20408.* **DO NOT SEND PAYMENT WITH THIS FORM.** When we search your order, we will make photocopies of records that relate to your request. For credit card payments, we will mail the copies immediately. For other types of payment, we will invoice you for the cost of these copies and hold them until we receive your payment.

SEE THE REVERSE OF THIS PAGE FOR DESCRIPTIONS OF THE TYPES OF RECORDS THAT CAN BE ORDERED WITH THIS FORM.

TYPES OF RECORDS THAT CAN BE ORDERED WITH THIS FORM

PENSION APPLICATION FILES

Pension application files, based on Federal (not State) service before World War I, usually include an official statement of the veteran's military service, as well as information of a personal nature. Pensions based on military service for the Confederate States of America were authorized by some Southern States but not by the Federal Government until 1959. Inquiries about State pensions should be addressed to the State archives or equivalent agency at the capital of the veteran's State of residence after the war.

BOUNTY-LAND WARRANT APPLICATION FILES

Bounty-land warrant application files are based on Federal (not State) service before 1856. Documents in a bounty-land warrant application file are similar to those in a pension application file. In addition, these files usually give the veteran's age and place of residence at the time the application was made.

MILITARY SERVICE RECORDS

Military service records are based on service in the UNITED STATES ARMY (officers who served before June 30, 1917, and enlisted men who served before October 31, 1912); NAVY (officers who served before 1903 and enlisted men who served before 1886); MARINE CORPS (officers who served before 1896 and enlisted men who served before 1905); and CONFEDERATE ARMED FORCES (officers and enlisted men, 1861-65). In addition to persons who served in regular forces raised by the Federal Government, volunteers fought in various wars chiefly in the Federal Government's interest from the Revolutionary War through the Philippine Insurrection, 1775-1902.

Compilations of information concerning most military service performed by individuals in volunteer organizations during the 19th and early 20th centuries are available, but such records were not compiled for Regular Army officers who served before 1863 and for Regular Army enlisted men and Navy and Marine Corps personnel who served during most of the 19th century. Records pertaining to such service are scattered among may files and generally contain few details concerning a man's service. We cannot undertake the research necessary to locate all such documents. If you request a military service record, we will copy the documents that best summarize the veteran's service.

The record of an individual's service in any one organization is entirely separate from his record of service in another organization. We are unable to establish accurately the identity of individuals of the same name who served in different organizations. If you know that an individual served in more than one organization and you desire copies of all of the military service records, submit a separate form for the service record in each organization.

Discharge certificates are not usually included as a part of a compiled military service record. Before 1944, Army regulations allowed the preparation of an original discharge certificate only, which was given to the soldier. Confederate soldiers in service at the time of surrender did not receive discharge certificates. They were given paroles, and these paroles became the property of the soldier.

Hello cousin! Sorry to be so long in replying to your message. Won't go into the reasons but just say, "I've been knee deep in alligators."
Now to your Ball family according to my files your line is:
1. Richard Ball m. Elizabeth Linton, dau. of Moses.
2. John Ball (1670-1722) m. Winifred Williams, dau of William.
3. Moses Ball (1717-1792) m. Nancy Ann Brashears, dau. of Robert & Charity "Dowell" Brashear.
4. George Ball (1753 Fauquier Co. VA-1825/39 Russell Co. VA) m. Elizabeth Tunnell.
5. James Ball (1781 Fairfax Co. VA-1865 Lawrence Co. KY) m. Nancy Breeding, dau. of Spencer.
Their children:
Harden; John; Robert; Elihu; James Milton; Elizabeth; Sarah; Charlotte; Nancy; Calvin.
6. John Ball (c1814 KY-) m. Martha Large.

I would suggest that you contact C.M. Maerz, P.O. Box 31010, Bloomington, MN 55431. She is the publisher of Ball Beginnings. Ask for info on the 50 page book of John Ball and Winifred Williams of Virginia. It is not error free concerning the father of Nancy Brashears, but I can offer you a Brashears gedcom if you'd like. You might want to buy the book, "The Balls of Fairfax and Stafford in Virginia" by Bonnie S. Ball, James Elihu Ball and Estella Ball Brady. For price contact Stevenson's Genealogical Center, 230 West 1230 North, Provo, UT 84601. The last I heard this book was still available. If you want the Brashears Gedcom just let me know. I can provide you with a bunch of ancestors I think. I use a 3.5 floppy and Family Scrapbook program. Send a disk to the address in my tagline with mailer. Glad to find another cousin. Even if this one is slow on the uptake! :)
Virginia.

Lunsford Smith

Thank you so much for the information that you sent me. Yours just might make sense. Solomon died in 1885 in Missouri but that is all I know so far. I just wish I could figure out who his parents were.

Again, thank you...I really do appreciate your help.

Debbie, saw your note on RootsWeb and perhaps have some information about your Nancy E. Smith. A Nance/Nancy E. Smith married Richard W. Mullis in Hancock County, Indiana on 12 December 1842. Since the Indiana Marriage database (http://199.8.200.90:591/s-t.html) shows a Nancy E. Smith and Solomon marrying on 8 July 1841 in Hancock Co. I would say it is the same lady. She had Smith children with her in the Mullis family in 1850 and was going by the name of Ellenor, on the 1860, and 1870 census. You will notice below that two of the Smith children were born in VA.

Son, Lewis C. Mullis and wife live next door to Richard (Family #225)..

DO NOT KNOW Where she or Richard are buried
Approximated her birth year as 1802
We believe since she had Smith Children, that she had been married to a Smith earlier. I would say either something happened to Solomon soon after they married or they divorced AND sometimes during those years, they just moved in and moved out. Perhaps looking at old newspapers for that area during that period (July 1841 to December 1842, might give you some info as to what happened to Solomon.

We live in Oklahoma and my husband is from the Mullis line. Angeline was his great grandmother who died in 1924 in Oklahoma. Hope this is of help to you.
Most sincerely
Barbara and Jack Fulton

Does anyone have any information that they would care to share with me on a Solomon Tyner married to a Nancy E. Smith from Hancock County, Indiana? They were married in Hancock County on July 9, 1841. I can't find anything else on them, who Solomon's parents were, where Solomon and Nancy died or where they were buried. I am hoping that someone might have some information that they could give to me. I would greatly appreciate it. Thank you.

Chappawamsic indicate clearly that migrants leaving upper Fauquier County at this period travelled and settled southeast of their point of departure. Findings from these records thus contribute to the mounting body of evidence obliging researchers to anticipate colonial migratory trails which lead in many, often unexpected, directions.

The Subscribers

Formerly members of the Baptist church at Broad Run in the County of Fauquier and colony of Virginia...desiring to be Constituted and Established into a distinct Church of the same denomination...and being at our own request freely dismissed for that purpose from the Church in Fauquier aforesaid as appears by a letter signed by several members of that Congregation, bearing date August 9th 1766....

ECKERT - Birth Announcement
Dec 1926 - Clinton Eye, Clinton, Henry County, Missouri
Mr. and Mrs. Sidney Eckert, of Sedalia, welcomed an 8 1/2 pound baby boy to their fireside December 9th, who has been named Robert Winston. Sidney would divulge his name only on the promise that the girls would not write to him until the second leap year. the new baby came at the General Hospital in Sedalia. Grandpa and Grandma C. B. Parks, on North Orchard, are beaming, as is Grandpa J. B. Eckert. This baby also has two great-grandmothers. The mother was Miss Pauline Parks, before her marriage.

ECKERT - PARKS Wedding
Dec 1925 - Clinton Eye, Clinton, Henry County, Missouri
The marriage of Sydney F. Eckert and Miss Pauline Parks was solemnized at the home of the bride's parents, Mr. and Mrs. C. B. Parks, on North Orchard Ave., at 9 p.m. Saturday, by Rev. M. O. Falls, pastor of the Presbyterian church with the ring ceremony. Only the immediate family and Lola Bailey and Floyd Ream were present. The bride is a graduate of the Clinton high school, being salutatorian of the class of 1922. She is an attractive girl and has a winsome personality, which has made her one of the most popular teachers of Henry county, having taught three years at Land school, and was teaching this year at White school, resigning her school to be married. She is a member of the Presbyterian church and is active in church work. The bridegroom is a son of J. B. Eckert, of the Mt. Carmel neighborhood, and is a young man of excellent standing. He also attended the Clinton high school. He was formerly employed at the C. C. Williams Drug Store, going from here to Garden City, Mo., as manager of a drug store there. He also has been manager of a drug store in Fulton. He is now traveling for the Upjohn Wholesale Drug Co., of Kansas City, with headquarters at Sedalia. They left on the 11:15 train and will be at home after Jan. 1, 1926, at 205 S. Mass., Sedalia, Mo.

TURNER, John P.
source: 1883 History of Henry and St. Clair Counties Missouri , National Historical Co., pg: 782
--- Captain John P. Turner, farmer and stock raiser, section 29, is a native of Bourbon County, Kentucky, and was born December 18, 1821. His father, Joseph Turner, a Virginian by birth, went to Kentucky when a young man and there married Susan Parks. John P. passed his younger days on the home farm, receiving his education at the Bourbon County Seminary where he acquired a fair education in the common English branches. In the spring of 1844 he came to Henry County, Missouri, and bought and entered 408 acres of land on Cedar Creek near Grand River. Mr. Turner was married in this county in the fall of 1844 to Miss Rosa J. Parks, a daughter of Reuben Parks, a pioneer settler of the county. There were eight children by this marriage, three of whom are living: Perez, John and Nancy B.; five are deceased. Mrs. Turner died in November, 1874. The captain was again married, this time in Indiana, March 8, 1877, to Mrs. Harriet E. Duggins, a daughter of R. W. Mullis. She is a native of Hancock County, Indiana, but was reared and educated in Fayette County. They have three children: Lela Myrtle, Ala Delle and Bonnie. Mr. Turner served during the war in the Enrolled Missouri Militia and was captain of a company. He was also appointed and acted as county judge but resigned the position in 1864 and was then appointed assessor and made the assessment of the county. He also was elected under the township organization, assessor of his township, all of which positions he has filled faithfully and impartially.

TIP #130 - REV. WAR SOLDIERS - LEWIS, LINCOLN, LIVINGSTON, LOGAN, & McCRACKEN COS

Archived with permission of Sandi Gorin <sgorin@glasgow-ky.com>
http://cgi.rootsweb.com/~genbbs/genbbs.cgi/USA/Ky/Tips

As a new series of information for my readers, and to be interspersed with the other tips, I am going to publish a list of Revolutionary War soldiers that was was drawn up by Anderson Chenault Quisenberry, Secretary of War to Congress in 1835 and published later by the Kentucky Society of the American Revolution. Quisenberry's original works were done in 1895, and at the end of the series I would like to add some of his comments. Additional information will be added from Collins' History. In my e-mails on the tips that I publish, I have been blessed to have many, many compliments that this list is helping. Most of you, like myself are looking for illusive clues that will help us find our families and like me also, many are always scanning lists of names in the hopes of finding our pioneer there. Maybe you'll find that name here ... it's sometimes easier to find information when one lives in Kentucky, and much harder when one is many miles away and working from libraries that often do not have the books one needs.

These lists are all the pensioners under the Act of March 18, 1818 and the Act of June 7, 1832. The first date is when the individual was placed on the pension rolls; the second when the pension began. Age, if shown, would be age at time of application (for the act of 1818).

My name is M. T. lunsford. I lead an on-line family group. It centers on the LUNSFORD family and all verified variants. The variants that are still in use today, are LUNTSFORD, LUNCEFORD, LUNCFORD, LUNDSFORD and LONSFORD. There are some old world versions that include LUNDRESFORD, LONESFORD and LUNESFORD.

I do an irregular newsletter that I mail out for free. If you would like to recieve this newsletter, just write me and ask! My address is BONESSGT@AOL.COM. This newsletter, and group, is not your usual Genealogy thing. It is far more!

Everyone is welcome! You don't have to be a family member and you don't have to have Lunsfords in your tree!

The goal of this group is to combine all of our branches into one big tree. Meanwhile, we help each other, share information and just generally associate!

The newsletter is called Good Ol' Mountain News, named for a song written bu Bascomb Lamar Lunsford. Maybe you have heard of it? Good Ol' Mountain Dew? The song the soda was named after!

The oldest member of our family, at this point, was born in the year 1057!

I look forward to hearing from you!

MIDWEST SETTLERS (Part I of II)

Of genealogical value in the Midwest are the muster and payroll records of the George Rogers Clark regiment. The records cover a four-year period of Revolutionary War Service, and provide important clues to early settlement of the Ohio and Mississippi River valleys. The military successes of Clark's regiment opened the American West of 1779 to settlement by American pioneers. The ordeal of conquest by Clark's small army included capture of British forsts at Kaskaskia and Cahokia, Illinois and Vincennes, Indiana.

The above and following information has been edited from an article written by Ken Childerson. He obtained his work from zerox copies of Clark's records held in the National Archives. Those persons interested in further research on some of Clark's troops will also find a great deal of information in the Virginia State Library, and particularly in some of the county histories of the Shenandoah Valley, especially those histories by John Wayland. Some of these describe the organization of Clark's troops with lists of names and biographies.

In September 1782, Clark's four company commanders were Captain John Bailey, Captain Robert George, Captain Robert Todd and Captain John Martin.

Among the certified land claimants whose names also appear on the Clark muster and payroll records are:

Andrew Clark	Richard Harrison	George Lunsford	Bucker Pittman
John Coldwater	Henry Holt	Mason Lunsford	Peeler Priest
Valentine Dalton	Christopher Horn	Moses Lunsford	William Pritchard
John Favery	John Johnston	John Moore	George Rupert
Robert George	Anthony Lunsford	Jacob Morris	Laurence Slaughter
John Montgomery	John Gerault.		

Additional land claimants who appear to have been veterans of Clark's regiment but whose names do not appear on rosters of Clark's four company commanders are:

William Tylor	William Beasley	Charles Bilderback	Abraham Thaller
John McMannes	John Doherty	William Favery	William Farth
John Lynes	Jacob Pyeatt	John Arth	B. Ballard
William Cofer	Edward Wilson	Edward Worthington	William Swan
William Piesley	Samuel Stroud	Thomas Moore	Henry Thompkins
James Patten	Barney Waters	William Crump	Abraham Miller
			Edward Money.

The land that Clark set out to conquer was at the time considered to be a county of Virginia, though it included what is now the states of Illinois and Indiana. Clark was called upon to raise his own army, and as a result many of the men of his regiment were frontiersmen. Clark had seen previous service in the Kentucky militia and had attained the rank of colonel. Some of his men were veterans from Kentucky service who could serve well with the Indians and French that Clark also recruited to his regiment.

The records for Captain John Bailey's company on November 30, 1781 indicate the typical loss of men that was experienced during the expedition. By that date, 12 privates had deserted, 1 ensign, 1 sergeant, and four privates had died, and three men had been taken prisoner by the British. Those who died in service included:

Named as deserters were:

Watkins Brooks	Ephraim Drayton	James Hayes	Grover Morris
William Prendergast	Peter Blome	William Braisley	John Clark.

Listed as taken prisoners:

Levi West	James Gumil	Larkin Ballinger

The muster roll of Capt. Bailey's company in June of 1781 showed the following personnel:

Captain John Bailey	Sgt. John Vaughan	Sgt. Nicholas Tuttle
Lt. William Clark	Sgt. Edward	Sgt. George Shepperd
Cpl. Peter Shepperd	Cpl. William Whitehead	Sgt. Michael Miles

and Privates:

Robert Witt	William Thompson	Nichalos Burk	Mason Lunsford
Randal White	William Bell	William Bush	John Wood
George Lunsford	Jacob Watson	Bernard Mippie	
Hugh Young	Robert Whitehead	Anthony Lunsford	

The records indicate that until October 21, 1781 the men of Clark's regiment did not have occasion to be paid for their service. The majority of Captain Robert Todd's company on that date had nearly 500 day's pay coming. The least number of day's pay due one of the soldiers was 88, the most 503. Captain Todd's pay record carried the following names:

Sgt. David Hicks	Pvt. William Hall	Pvt. Samuel Johnson
Pvt. Richard Clark	Pvt. James Kirtley	Pvt. Thomas Kirk
Ensign Laurence Slaughter	Pvt. Larkin Ballinger	Pvt. William Potter
Pvt. Lewis Pines	Pvt. James Ballinger	Pvt. Henry Phillips
Pvt. Randolph White	Pvt. Fred Zimmerman	Pvt. John Vaughan
Sgt. Joseph Roberts	Pvt. Edward Doherty	Pvt. John Williams
Pvt. William Kerr	Pvt. Hugh Young.	

Also carried on Capt. Todd's records were the names of three men whose absence was unauthorized and the names of five men who had been released by Col. Clark. Pvt. Alexander McRoberts had received permission to go home, the four discharged were: Sgt. William Asher, Pvt. Henry Crutcher, Pvt. Joseph Launders and Pvt. John Bailie.

Explaining the absence of Lt. John Roberts were the remarks, "sent recruiting August 10, 1779 and never returned."

Two other men listed absent were Christ Lightholder, "deserted at Kaskaskia to the Spaniards June 10, 1779", and John Fox, "deserted a few days after his enlistment January 13, 1779".

To be concluded next month

Lake Eliza was a small congregation situated in Lake County, and not far from the city of Chicago. It was settled by Covenanter emigrants from the eastern states in 1850. The society was organized into a congregation in September, 1852..... Gradually diminishing by emigration, the congregation was disorganized in 1886. Here lived the families of Yount, McKnight, Kirkpatrick, Bovard, Russell, McFarland, Davidson, McLaren, and others. (From History of Ref. Pres. Church in America)

ROBERTSON, Mary (Molly) married 1905 in CA to William James LUNSFORD Jr
Tracing William "Bill" J. Lunceford Sr has been a problem in so far as
there are two William J. Lunceffords both born in Missouri. William
"Bill" James Lunceford was born 1846 in Polk Co. MO, the son of Coffman
and Elizabeth CAMPBELL Lunceford. Bill left Polk Co. after the death
of his father and probably with his mother sometime after the 1860
census. His mother went to Bonham TX. Bill shows up in Napa CA in 1870
when he married on 16 September 1870 to Mary Evaline STARK. He and Mary
may have lived in the part of Napa County that is now covered by Lake
Berryessa. They were living in Colusa Co. CA during the 1880 census.
Bill died sometime between 1880 and 1888 when Mary remarried to
William MERRITT. We would like to know when & where they died. Also, any
ROBERTSON connections per MOLLY below (ancestors, collaterals, etc) Also
need any other William LUNSFORD/LUNCEFORD & spouses (please post list)

Children:
William James Lunceford Jr., b. 18 Oct 1871 ?Colusa Co. CA?
married 20 Dec 1905 Colusa Co. CA to Mary "Molly" ROBERTSON,
d. 30 Aug 1940 Marcola, Lane Co. OR
Nettie Malvina Lunceford, b. 3 Feb 1874 CA, d. Mar 1925
m. ca 1894 to Axel POLSON
Reuben Lunceford, b. ca 1876 CA, m. in Colusa Co. to Nora ____
The other William J. Lunceford was born 1847 in Missouri and was in
Oregon in the early 1870s. He married in Dallas OR on 17 Oct 1875 to
Eliza HOOKER. He had a small ranch near Heppner OR and on 2 February
1892 he was shot and killed by John AMBROSE. According to the 1880
census of Umatilla Co. OR his children were: Children:
Nettie Lunceford, b. ca 1877 OR
Daisey Lunceford, b. ca 1878 OR
"Babe" Lunceford, b. 1880 OR Data thanks to Audrey Ulm, above.

ERROR MESSAGES

Errors - Please READ error responses, if you have a problem. We try to design responses that will answer your questions. If you are still lost, send a copy with all headers to sundance@neosoft.com

1) READ error messages. If it says "unknown user" or "full mailbox" or "cannot append" or something about a "loop" then send me HH a copy. I fix those problems by bouncing the culprit (although they may be perfectly innocent - there's just no other choice). If it says "TRANSIENT error" then do NOT send it to me. These are errors like "connection refused" or "host reset". The Internet is in constant flux with systems crashing / coming back up. I can't fix those problems. IF YOU GET THESE ERRORS THEN YOUR MESSAGE WENT OUT AS IT WAS SUPPOSED TO. Just ignore them!

2) If your error message begins something like this:

Subject: Error notification

Body reference to your message with the subject: (whatever your subject line was)

One or more addresses in your message have failed with the following responses from the mail transport system:

Then you *did* have a problem reaching this server. Read the error message; it will probably tell you what failed.

Your help with this problem is appreciated. I cannot fix it, as the message was probably never received by this server.

Hello to you all. I know you are not accustomed to getting a lot of mail from this list. However, I thought I would begin mailing out my newsletter via this list. It is called Good Ol' Mountain News, named after the song Old Mountain Dew, which was written by Bascom Lamar Lunsford.

I hope you like it. If you want the newsletter with all the bells and whistles (color, photo's, sounds, various fonts, various font sizes, headers, footers....), write to me and ask to be on my regular mailing list.

The newsletter is sent out by E-Mail as a Zip file containing three test formats of the newsletter, as well as any attachements (like photo's, sound, etc.).

The newsletter is FREE by e-mail.

GOSSIP

Welcome to the first Family Newsletter. This first issue will be used to primarily introduce the newsletter itself and seek input, suggestions, comments and assistance. This thing will not work unless you guys decide to participate on some level. Even if minor.

This heading, GOSSIP, will be the general talk area. This is where general topics will be covered and discussed.

I need help with a Newsletter Title. I welcome all suggestions. AOL is out, as it is a registered trademark. Therefor, America of Lu{*}fords is also out. In fact, I would hesitate to include Lu{*}ford in the title at all, due to the variant spellings. If we ever find that Luxford or Lonsford are also in our tree, the generic-reference will change to L{*}ford. I thought of using our verified spelling variants to spell the title, but I couldn't get a reasonable word out of T, S, CE and D. Best I could do was DCEST. So, please, give me some suggestions and get really creative. I have all ready received suggestions of Digital Lunsford Update, Digital Dispatch, Land `O Lunsfords and Lunsford Registry. Three of them use Lunsford in the title, which I would like to avoid, if I can. The other sounds like a Business Newsletter. Perhaps something in our History can give us a title. I have used "Good Ol' Mountain News", inspired by the song written by Bascomb Lamar Lunsford. If you got anything better, let me know!

Speaking of variant spellings, I believe it was Cuzzin Harold (sundance@neosoft.com) who told me that Lonsford and Luxford were variant spellings. He said that Luxford was pronounced like Lunsford and was just another variant spelling. I found 3 or 4 Luxfords on AOL. I contacted them and I was told that Luxford is pronounced just like it appears -- Lucks-ford -- and no one could confirm, or had ever heard of, any Lunsford connection.

Ya Know.....

This category will be for technical information. We can discuss just exactly how certain relations are defined. For instance, myself and Jeffery Evans Lunsford (CaptSpud01@AOL.Com) are connected via a common Great-Great-Grandfather. What does that make us (and don't say hardly related, ha ha). I am thinking 7th cousins, maybe.

We can discuss easy-to-type relationships (shorthand). A Great-Great-Grandfather can be referred to as gg-Grandfather, or gg-Grand.

We can also discuss procedural things. For instance, females should be listed using their maiden name, not married names. Calling a female Lu{*}ford when she married into the family gives the appearance that she was born into the family and easily confuses matters.

We can also discuss computer stuff. I am sold on this "Family Ties" Program by Individual Software. A company that Cuzzin E. Michael Lunsford (Lnsfrd@AOL.Com) was Vice-President of in 1989 (that has got to be an omen). However, many of you all ready have your own programs. One suggestion was a program called "My Brothers Keeper." I have also been told of one called "GIM_34." Both are said to be available in the AOL

Genealogy Forum.

Whatever program you get, make sure it is GEDCOM compatible. This way, no matter what program you have, we all can exchange files via E-Mail. Quick, simple and easy. No typing, no photo-copying, no snail mail, no extra trouble.

By the way, I think it is really important that everyone get such a program.

I will send this newsletter attached to E-Mail, so you can download it at your convenience. I will also be sending it zipped up, to save upload and download time. Can everyone unzip files? If not, better let me know now! PKZIP and WINZIP programs are available on-line. I do not know if Mac users will be able to unzip. Can anyone tell me? If you are on AOL, your files will automatically unzip -- if you choose that option.

MUGSHOT

This section will be used to profile family members/kin living or dead. Just to start off, I'll do myself this time. I would hope that you guys use this (my profile) as a format for profiles on yourselves, when come calling to ask you for one. I am hoping this will the most popular section, or at least the most interesting section. Pardon me while I get in third person mode....

Michael Terry Lunsford was born March 31, 1961 at 1738 hours. He often says that he just missed being a fool (April 1st, April Fools Day), though some argue that he didn't miss at all. He goes by his middle name, Terry, which seems to be pretty common with Lunsfords. He was born in Griffin, GA. (Spalding County Hospital). His father is Hugh Russell Lunsford (4-26-38) and his mother is Norma Patricia Thurston (10-24-40). They divorced in 1975. "Russell" remarried to Patricia Bond Thompson. Terry has one brother (Stacy Cameron, 04-13-65) and one sister (Rhonda Michelle, 06-22-63). He also has a step-brother (Chadwick) who has been adopted by his father (in a second marriage). The Family gossip has it that "Chad" is actually a half-brother. Family gossip also has it that there is another half-sister somewhere, older than Terry. Terry is the oldest, though he was his mothers second pregnancy. She lost the first one.

Terry has been married twice. His first wife, Rhonda Sue Jenkins (Kelly, Elkins, Petit -- she seems to like collecting last names...heh heh) produced no children. The marriage ended because she decided she didn't love him anymore. Terry, not one to fool himself or beat around the bush, moved out that same day and had the papers drawn up and signed the next day. Uncontested, no fuss, no fight and no contact since. One thing about Terry, he may joke a lot, but he is also very serious. When he says something, listen, because he means it.

His 2nd wife is Melissa Gwyn Cheney (02-26-72). They have 2 kids, Lauren Elizabeth (Loribeth), 4-19-92 (born on Easter Sunday -- some said she should have been named Bunny) and Kimber Lynn (09-18-95).

Terry once saw a Gypsy at a public event when he was about 5 years old. She was charging 25-cents to read palms. Terry went in and she told him his name and birthday. She told him he had an Aunt named Debbie Lunsford. He told her that his Aunt Debbie was a Thurston. She says he would have an Aunt Debbie Lunsford in the future. She also said he would be a Policeman and would be well off with 3 kids. Terry is now a Policeman (of 11-years), has 2 kids (not 3, unless there is one he doesn't know about), is NOT well off (Police aren't exactly well paid -- and in debt, too!) but does now have an Aunt Debbie on the Lunsford side.

GOOD OL' MOUNTAIN NEWS #2 E-MAILED 061096

GOSSIP
This section is the general talk area. Any and all topics not covered in other sections will be addressed here, such as ideas and observations.

For the most part, no matter what culture or religion you are from, or ascribe to, the human race goes back to a divine creation and/or two individuals. Even the scientific evolution logically dictates that we all had to go back to two individuals. Resultantly, our Family Tree goes back to these two individuals. Realistically, making that connection is impossible.

First off, to trace the Family Tree, you need documentation. Other than cave drawings, the ability to communicate by the written word does not go all that far back. Not to mention that much of the earlier writings have been lost to natural disaster, war, vandalism and/or decay.

If Adam and Eve were the first two humans, and the documentation of their existence has managed to survive -- then it is not completely unreasonable to think our Family Tree has the potential to be traced back to them. After all, these ARE the first two people in our Family Tree. As the joke goes, the obsessed researcher said that her tree goes back to Adam and Eve. The other commented that, obviously, all our trees do. The other then said, "Yes, but I can prove it." Sorry. This may only be funny to the hard core researchers.

Of course, you realize, the Human Race had to grow out of incest among their children. Perhaps this in-breeding will explain why God chose to destroy all but 8 of them with the great flood.

And who is to say Adam and Eve weren't cave people, whose names were Ugh and Oongh (in their language)? Regardless, we can fill in a good bit of our Family Tree roots with all the genealogy information given in Genesis. While we may not have dates or we may not be able to connect to those people listed in Genesis, we do have the root of our big tree.

We also have the big question. If we all descend from Adam and Eve, why do we have different races and languages? Well, if you believe in the Bible, it goes back to divine intervention again. This cultural and racial diversity that we have can possibly be explained with the Tower of Babel, where God separated the people and gave them separate languages (Genesis Chapter 11) -- though it says nothing about separating or forming the races. Some believe the separate races were created when Cain was punished for murdering his brother, Abel. Some say that by having a "mark sat upon" him, he was made into a different race (Genesis Chapter 4). However, this only explains two races. Unless things have changed since I was in school, there are three races: Caucasian, Negroid and Mongolian.

Evolutionarily speaking, the racial differences could simply be a matter of genetic development based on environment. Depending on where you lived, the climate, the terrain and so forth -- people could easily have evolved a little differently in different areas. Another explanation could be in-breeding (face it, population was limited), which led, in isolated areas, to pronounced Family Traits that eventually led to

obvious, visible, differences between different peoples and tribes. Or maybe there is even a third possibility. There have been different types of primitive men ("cave men") discovered. What if each race descended from different cave people? If we all descended from the same cave people, maybe the various races didn't evolve from the same couple. Maybe in addition to Adam and Eve there was also a Yin and Yang and so forth. Perhaps they also lived in different areas and gave rise to the different races, explaining the large populations of Caucasians around Europe, Mongoloids around Asia and Negroids around Africa. Who knows?

None-the-less, religious or scientific, an Earth-wide cataclysm also took place. Did it kill the Dinosaurs or all but a few humans on an ark (Genesis Chapter 7)? Either way, most cultures, as part of their religion or their history, tell of a great flood or disaster. Scientific evidence points to some great disaster in the past also, be it a meteor strike, glacial melting/flood or the Earth tilting on its axis. In any case, the question arises, if humans were on Earth at that time, how many survived? Or did we evolve afterwards?

The Bible says eight people survived (Noah, his three sons and their four wives). The Bible said that the three sons and their wives went forth and repopulated the Earth. The Bible (as I quickly reference it) implies that the sons reproduced, but Noah and his wife did not. Thus, we now have another possible source for the three races with the 3 sons of Noah (Shem, Ham and Japheth).

If we go with this possibility, we can logically conclude that we, in effect, have a new Adam and Eve with Noah and his unnamed wife. The three sons all descended from Noah and his wife. Noah, and his wife, resultantly, are the father and mother of the current Human race(s) as we know it. Everyone who has lived since the flood had to descend from them via one of the three sons. Only through Noah and his wife can anyone even begin to trace on back to Adam and Eve. At least this time the human race arose out of kissing cousins instead of incestuous brothers and sisters!

Keep in mind that I have rambled out of sequence here. First it was Adam and Eve, then Cain, then Noah and then the Tower of Babel. Considering that, Cain can logically be eliminated as a source for the racial differences we know today. In that all three of Noah's sons evolved from him, it is not logical to think they represent the origin of the three races, though it has a ring of consistency to it. Perhaps a combination of science and religion can explain it. Perhaps the three sons and their descendants, settled in different areas and evolved differently with certain traits (genetics/evolution) taking precedence in each lineage.

In any case, no matter what religion you may study -- or scientific theories -- it is clear. We all had to come from 2 parents. Our parents had to come from 2 parents, and their parents from 2 parents and so on. This may sound like a backwards population boom, but we must keep in mind that each set of parents likely had more than 1 child, who, in turn had more than one child and so on. Not to mention the intertwining of families.

Of course, if you get really scientifically technical here, the first two Humans, if not divinely created, had to originate from pre-Human parents on back to the first two living cells on Earth. Or through meiosis of the first cell (can Eve be said to have been created through meiosis from Adam?). Obviously, we need to stick with Humans, here. As the saying goes, stop when you find a tail.

The point is, we have to eventually get back to two individuals as the origin point of us all. The roots of out great Tree. Logically speaking, those two people are Noah and his wife, not Adam and Eve. We can't get to Adam and Eve without going through Noah and his wife.

So, what kind of goal do we need to set with our Family Tree? Answer, Noah. If my information is correct, the time of Noah, scientifically speaking, is around 3,000 BC. I have heard at least one person claim they had researched and located people, from our Family Tree, as far back as 1057 AD. If this is true, we only have about 4,000 more years to go!

YA KNOW.....
This section is for technical talk. Taking care of the details and clarifying issues such as terminology, research methods, information sources and so forth.

It seems that few people were able to access and read the first issue in RTF format. Barring Internet encoding troubles, everyone should be able to access the TXT format. It is a shame, really, as the MS DOS TXT file does not include all the special fonts and so forth. In fact, MS DOS TXT files are easier to read if your print them out first. Many TXT files go a mile to the right before another line starts on the left.

What I have decided to do is send out future issues, including this one, in both formats. This will be done by zipping them up together as a ZIP file. If you do not know about ZIP files are, or how to unzip them, you need to find and download the PKZIP204g program (for DOS users) from the Internet. There is also WINZIP, which works under Windows. For you MAC users there is a program called GZIP that will do this for you.

It seems that the biggest problem lies with Compuserve members. It seems that stuff sent out over the Internet must encoded. I have discovered that AOL does this automatically, in the MIME format. That means it is reduced into a ASCii text file. I don't understand why the text-based newsletter does not get to Compuserve intact. Prodigy members did not seem to have this problem, with a couple of exceptions. In fact, all though the newsletter is sent out as an ATTACHED file to E-Mail, it arrives to Compuserve members as PART of the E-Mail. It is my understanding that a text file should make it through, but it seems that Compuserve does not Unencode it (revert it to its original form) upon arrival. Much less attach it as a separate file.

I am not sure how I am going to overcome this problem. I recently re-joined Compuserve and sent a TXT, RTF and a ZIP file to myself over on Compuserve from AOL. Upon arrival, all three files were incorporated into the E-Mail, not attached to it. The RTF file had all sorts of data for the special fonts and so forth, intermingled with the actual text. It was not readable. The TXT file was more readable, but still messed up. The ZIP file was nothing but coded information.

I hope I don't have to resort to sending out encoded newsletters. I think, then, that a vast majority will have no idea how to access the file. The good news is that Compuserve is suppose to be modifying its mail system to automatically unencode files. For now, I will stay on Compuserve and mail from within to Compuserve members. I hear Compuserve will be putting out its new on-line program (Version 3) in June.

The good news is, this newsletter is now available for downloading on-line, from both AOL and Compuserve (see Newsletters in the Archives section). Each issue will appear at these locations within 2-weeks after I e-mail them. Unfortunately, Prodigy, while it does have a Genealogy section, does not allow uploading of files. At least, not as far as I can tell.

As I have been entering names in the Names List (see Archives), I have noticed a lot of repeated names. Many seem to be from the same era and have the same first and/or middle names -- but a variant spelling of the last name. Thus, it is easy to conclude that many of the names that we

think are different people, may, in fact, be the same people. Thus, it has become apparent that we will need to be EXTREMELY careful with spelling names. We need to verify spelling as much as possible and not spell them like we assume they are spelled.

For instance, one variation that I can clearly use as an example is Bascomb Lamar Lunsford. Of those who have mentioned him, I have seen spelling variants of Baskum, Lamaar, Lammar, Bascoomb and Bascum. I have stuck with the common spelling of both names, as I don't know if Bascomb may have spelled his name in a unique or phonetic manner, or not. Obviously, the same thing that may have created the spelling variants in our Family name, is still at work.

In fact, Cuzzin Ross Luntsford (RLuntsford@Aol.Com) is a case in point. His family tree goes back to a Alexander Lunsford (no "T"). The family lore has it that Alexander's son, James Lunsford, became James Luntsford when he started school. It seems that the school teacher added the "T" to his name and it stuck with him for life. All his descendants use the LUNTSFORD spelling. It would be interesting to know if James had any brothers and if they and their families kept with the LUNSFORD spelling.

So, spelling phonetically is not going to work. We need to base our spellings on documentation, where possible. If we have documents that contradict each other, then we will have to list both spellings for the same person, just to be sure. However, with multiple documents, we should be able to determine which spelling is probably correct and use that one. Any other spellings will then be listed as an alias.

Let me go off on a tangent here, speaking of phonetic spelling. Many people use a phonetic dictionary. There is nothing wrong with that, as you insure that you are getting the spelling right -- and, in the process, probably learning to spell better. However, do you guys know that, in our schools systems today, they do not mark off (or correct) for spelling? They call it creative spelling and justify allowing bad spelling by saying that marking off, or correcting for bad spelling, is detrimental to the students creativity and confidence! Emyjenn toomawrows riturrs an duh masseev kamooneekayshun truhbuls dey weel hav!

Anyway, Cuzzin Jane (Aj possum@AOL.Com) says that similar or same names is not uncommon. In fact, she says you should expect it. In her case it is a Mary "Polly" Lunsford. She said is was common practice for daughters to have the same name as mothers, aunts and grandmothers. She also said that most Marys were called Polly, Sarahs were called Sally and Elizabeths were called Betsey. Thus, the Mary "Polly" Lunsford I knew of is likely connected to the Mary "Polly" Lunsford that she is still looking for. I also hear that Margarets were called Peggy.

MUGSHOT
This section will spotlight a family member and/or relative each issue.

Stephen Jay Lunsford was born in San Jose, CA., on September 8, 1950. He is the second of three children born to Wilbur Gordan Lunsford and Marian Estel McClue. He has an older brother, Allan Gordan Lunsford (AllanTLG@AOL.Com) and a younger sister, Lynne Anne Hunt (LAHArtist@AOL.Com).

Stephens' father, Wilbur, was born in Jeffersonville, IN. on June 9, 1919 and lived there until the age of 9. In 1928 his family moved to Modesto, CA. where he spent his formative years. Wilbur then attended San Jose State College (now San Jose State University), where he met his future wife, Marian McClue.

Stephen spent most of his formative years as a gypsy, traveling with his family throughout California (his father followed the newspaper

business). He lived in San Jose until the age of 5, then lived in a number of California towns (Castro Valley, Hayward, Arcadia, Pasadena and Upland) before settling in Hayward, on their second move there.

Stephen developed an early interest in the visual arts, especially photography. At the young age of 14 he built his first small darkroom and began teaching himself the rudiments of photography. Stephen would complete his formal education in photography by attending Laney College in Oakland, CA. Later he would work with Ansel Adams and John Sexton.

For those of you unfamiliar, Ansel Adams is famed for his panoramic B&W scenery shots. All though he is passed, you can still find Calendars featuring his work -- usually around Christmas when all such calendars come out. John Sexton is also a famed contemporary west coast photographer.

Throughout this period of creative growth, Stephens' artistic energies were fueled by the activism, art and music of the San Francisco Bay area. He was greatly influenced by the photographic vision and writings of Aaron Siskind, as well as Minor White (both are/were famous photographers and peers of Ansel Adams). Stephen began to experiment with the delicate junction between the representational and the abstract. His fascination with the abstract led him into exploring alternative photographic processes -- a creative thread that would continue throughout his life, so far.

Adding to his artistic life, Stephen has experienced numerous cultural environments throughout the world, by continuing the gypsy life-style established in his childhood. He has lived and worked in such diverse locations as Illinois, Missouri, Montana and Belgium. He now lives on the Central California Coast.

His first contact with the photographic process of image/emulsion transfer was in 1992. He says it was a true spiritual awakening. This process facilitates the removal of the fine detail and over saturated colors that are normally associated with the photographic medium (allowing him to transcend the subject matter). Stephens' exploration of this process has allowed him to continue his investigation of the fragile and delicate junction where the abstract and representational fuse. Samples of his work can be viewed (and purchased) at his web-site (see OH WHAT A WEB WE HAVE WEAVED).

Stephen is married to Janis Jane Hanlin, who was born in Livingston, Montana on September 9, 1949. They have two children from her former marriage. They are Stephen Douglas Archuleta and Melissa Lynn Archuleta. Stephen also has a child of his own from a previous marriage to Gail Bowen. His name is Christopher Joseph Lunsford.

Stephens' interests outside of the arts are quite diverse. His musical tastes run from Led Zepplin, Pink Floyd and AC/DC to Sting, REM and Live to Bob James, Grover Washington and Beethoven. He says he has a very eclectic taste that only has one requirement, it must speak to him on an emotional and intellectual level. Otherwise, he says, its just chewing gum for the mind.

His reading habits are just as eclectic. The last five books he has read include "The Zen Doctrine of No-Mind", "The Druids -- A History of Celtic Priests", "Oscar Wilde - A Biography", "Being Digital" and Stephen Kings' "Nightmares & Dreamscapes." He is currently reading Ken Wilburs' "A Brief History of Everything."

As for television, he is not impressed. He thinks it is primarily "chewing gum for the mind." However, please don't disturb him on Friday nights, there isn't anything more important than the X-Files!

And his favorite quote? "From the first, nothing is." A quote of Hui-neng who is "The Sixth Patriarch" and the father of Chinese Zen. He is modern Zen Yogins direct link to the Bodhi-Dharma.

WHAAAA....????!!!
Looking for answers? Connections? Information? Then this is the place! Feel free to ask any and all questions here. Hopefully, you will get an answer by the next issue!

Cuzzin Elizabeth (BAMAJELY@Aol.Com) is still seeking info on Ephraim Lunsford, Sr., b1766, SC. He married an Elizabeth. There is records of them having lived and paid taxes in both Randolph and Chattahoochee (Muscogee) County, GA. one of their children was John Pickett Lunsford (b 1808, d 1870's). Ephraim was most assuredly born in the 1700's. She seeks info on Ephraims' parentage.

I (BonesSgt@AOL.Com) would like to know if anyone can connect to a Mike Lunsford born in Guyman, OK June 6, 1950. He may still be living.

Cuzzin William (75243,1614@Compuserve.Com) seeks to fill in the gaps of his branch of the tree. He provides the following info: Father William R. Lunsford (b1905, Waco, NE), Grandfather Franklin D. (b1862 Iowa), G-Grandfather David L. (b1818 VA) and GG-Grandfather Rueben (b1793 VA). I show a Franklin Dwight Lunsford (thru 102472,3360@Compuserve.Com, DOB Unknown) and a Frank Lunsford (thru allen@suzieq.gfsc.nasa.gov, DOB Unknown). Cuzzin John E. Lunsford (2223 Alhambra SW, Albuquerque, NM 87104) says that his gg-Grand was a Rueben Lunsford (b1793) and that Ruebens father was also named Rueben and had fought in the Revolutionary War.

Cuzzin Jennie (JKlunsford@AOL.Com) seeks info on Rushea "Rush" Lunsford. He took out a marriage bond to a Nancy Sparrow in Caswell County, NC in 1835. They later moved to Macon, Missouri. Their kids were Alvin, Thomas, Henry, Martha (who married Tom Peterson) and Isabel. He may be related to a Colly Lunsford who had some land transactions with the Sparrow family. Best I can come up with is a Marthena Lunsford (thru JackLunsf@Aol.Com, DOB Unknown). I also show a Rebecca Peterson in the same era, who married a Jesse Lunsford (thru Aj possum@AOL.Com)(see below) -- any connection to Tom?

Cuzzin Roland Heddins (RJHeddins@AOL.Com) seeks info on Peter Williamson Lunsford (b1804) and Philitia D. Davis. They may have married in Alabama in 1837. He wishes to know if anyone can verify this and reveal what county they married in. His line comes through their daughter, Elizabeth "Lizzie" Lunsford (and then Betty Jane Fitzgerald to Beula Curtis to Lillie Stanberry to Charles Heddins -- his dad). The 1850 Census and the 1860 Census are not consistent with reporting his age and he may have gone by William Lunsford. The best I can do is William Lunceford (DOB Unknown, thru VectorDr@Aol.Com) and William Lunsford b1813 (thru LWWolfe@Aol.Com).

Cuzzin Jane (Aj possum@AOL.Com) is still looking for the ever elusive Jesse Lunsford. He was born about 1780 and died before 1840. He married Rebecca Peterson in 1812. He had sons in the 1830's census. One daughter was Mary "Polly" Lunsford who married Henry Crabtree in 1830. They were from VA, but lived in Greene/Cocke County, TN. She wants info on Jesse's parents and a confirmation connecting Mary to Jesse. She is also looking for info on Clarence Lunsford. I show a Tom Peterson in the same era, who married Martha Lunsford (see above)(from JKlunsford@AOL.Com) -- any connection to Rebecca?

Believe It or Not
Got a good story involving kin folk? Share it with us! Funny, sad, weird

or interesting stories -- or lore -- will be shared here.

Cuzzin Jane (Aj possum@AOL.Com) notes some amazing coincidences that have been happening to her with Genealogy. I told you last issue how I had tried to assist her with connecting to a Mary "Polly" Lunsford she was looking for. I had seen the same name in Cuzzin Bob's (GUNNELLS2@AOL.Com) research and sent it to her. She said it wasn't the same Mary she was looking for, but the file did contain info on her Cummins line, that had also married into the Lunsford line -- a connection that had been eluding her! She then mentioned that she was working on her LANE family line. As it turns out, my mothers' sister married into the Lane family! She also has someone who she contacted on-line who is suppose to send her an extensive file on LANES. As it turns out, they discovered they have the same grandparents (maternal grandmother) and the same third great grandparents (maternal grandfathers side)! She has also been contacted by a man doing research where she lives. She happened to know of researchers for every name he had, including herself, and she ended up being kin to him through her husbands line! In fact, he asked about the location of a specific community, which is where she happens to live. Further, she and her husband own property that originally belonged to one of his ancestors! Want more? Her local librarian told her she was the luckiest researcher she had ever seen. Cuzzin Jane sarcastically remarked that the librarian would end up related to her, too! And guess what? They turned out to be cousins by marriage! Doo-doo-doo-doo, Doo-doo-doo-doo (Twilight Zone music).

FAMILY REUNION
Connection made to others? New connections made in your own tree? Lets talk about it here!

There are no new connections, between our branches, to report this issue. This section isn't just to report connections made to one another. It is also to report connections you have made on your own in your own branch. Perhaps you finally located an elusive relative? If so, let us know about it and tell us how the connection was made or discovered! Then we can all learn research methods and tactics from each other!

OH what a web we have WEAVED
This section will spotlight a family related web-site. Don't just read about it, go browse it on the World Wide Web!

I was planning on starting this section up next issue. However, since this issues Mugshot is on Cuzzin Stephen (stephen@sjlimages.com), I decided to start it this issue!

LOCATION: http://www.sjlimages.com

Cuzzin Stephens' web-site starts out with a short overview of its' features, and you can immediately see two of his photographs. Also of note is that the artwork was done by his sister, Cuzzin Lynne Hunt (LAHArtist@AOL.Com).

This web-site is primarily business related, to promote and sell his photographs and the featured works of his guest artists. The site includes several primary areas.

The Information Desk provides access to a number of informative areas in reference to events, exhibitions, purchasing art, info on the artists and such. The W. G. Lunsford Memorial Gallery is the place to see Stephen's' work. The Loft Gallery is the place to browse the featured guest artists' work. Currently this artist is a Larry Barbier who specializes in hand colored silver gelatin prints. The Light House is dedicated to providing the best possible commercial services to art collectors, art directors and local Central California Coast artists and businesses. The last

or interesting stories -- or lore -- will be shared here.

In MEMORIUM
Has a relative passed on? If so, lets honor and grieve for them, here.

Cuzzin Elizabeth sadly reports the death of her mother-in-law, Vivian Evans Young, of Macon County, AL. She was the only child of Frank Ward Evans and Etta Brown Birmingham. She was born March 27, 1909 and passed on May 13, 1996. She had six children, Lovie Y. Jones (Montgomery, AL), Kathryn Y. Stough (Prattville, AL), Jerrell Evans Young (Prattville, AL, Cuzzin Elizabeth's husband), Frank Eugene Young (Lilburn, GA), Donald Houston Young (Warner Robins, GA) and George Robert Young (Opp, AL). She had 19 grandchildren and 22 great-grandchildren. Her 23rd great-grandchild (see GOING GAA-GAA) was born the day of her funeral, and three more are expected before the year is out. Vivians' husband, Ernest Jarrell Young, died in 1970. She was well known through-out Prattville, AL. She touched many lives in the church and in the town, having baby-sat many, many children for the 26-years she lived in Prattville. She was buried at the Family Cemetery at the Antioch Methodist Church near Notasulga, Macon County, AL.

GOING GAA-GAA
New Baby in the Family? If so, lets boast about it here!

As mentioned last issue, Katy (KPLunsford@Aol.Com) and Greg (OAEStrider@AOL.Com) were expecting. They had a boy (their third child) and named him Scott Gregory Lunsford. He was born March 1, 1996 in Oxynard, CA. Scott has had it rough so far. He has a blood disorder, so rare, that it doesn't have a name yet. It is similar to Hemophilia, as the blood doesn't clot normally. Normal red blood cells join with fibrinogen to form a clot. Antiplasma dissolves the clot. An element called Alpha^2 Antiplasma Inhibitor then stops the unclotting function. This element is missing in Scott's system. While most patients do not survive long enough for diagnosis, Scott is doing well and has gone home from the hospital. He will require regular treatments of plasma or cyro-precipitate (a by-product of plasma), but is expected to be normal, otherwise. This disorder is thought to be genetic, all though there are no other instances known in their branches of the tree. Scott is one of the few who have survived long enough to be properly diagnosed. The disorder may not be all that rare, just not diagnosed before the poor victim passes on. It is said that Scott will make the medical journals. His fibrinogen count has been out of alignment. Oddly enough, it increases with a transfusion of plasma. The current logic is that his liver is producing all the fibrinogen he needs, but without the Alpha^2 his system is breaking down the fibrinogen as fast or faster than it is produced.

Pamela Lunsford (Funnlcake@AOL.Com) and her husband, Craig, are the proud new parents a Nolan Levi Lunsford. Nolan was born December 29, 1995. He was 7 lbs. 9 ounces!

Cuzzin Elizabeth (BAMAJELY@Aol.Com) has a new birth in her husbands family! Steve and Becky Young are the proud new parents of Tyler Scott Young, born at 8:32 PM on May 15, 1996 in Macon, GA. Tyler's grandparents are Don and Glenda Young of Warner Robins, GA.

HOUSE RULES
This is our list of House Rules to insure a cooperative venture and good relations for all. Suggestions for additional rules or changes in the

existing rules are welcomed.

1) BATCH-MAIL: Do not send out any batch-mail (mass-mail). The only all-encompassing batch mail to be sent out is this Newsletter. Individual and select group contacts are encouraged.

2) LUNSFORD TEMPER is a phrase my branch commonly uses, in reference to family members tending to fly off the handle at a drop of the hat. Lets keep civil relations with each other.

3) MAILING LIST: If you are currently on the mail list and want off, just ask. I will immediately take you off my batch-list and tell all the others to delete your address. If you want to get back on the mail list, again, just ask. You do not have to be an actual family member. I will gladly include anyone on the mailing list.

4) MULTIPLE ADDRESSES: If you are getting family mailings at multiple locations, let me know what they are and which one you want me to list as your primary address. I will delete the other addresses.

5) PRIVATE MAIL LIST: If you wish to receive only this newsletter, and do not want others to know your address or to send you E-Mail, ask to be on my Private Mailing List. This is for Newsletters and limited contact by me, only.

6) HELP!: Please assist me (BonesSgt@AOL.Com) in obtaining any and all new E-mail addresses. This can be done by searching member directories of your on-line service provider, or browsing the Internet with a search engine (using our Family name as the keyword). Also, send in info (deaths, births, stories, info, suggestions, etc.) that can be included in the newsletter.

ARCHIVES
This is a list of available files and things that I have. They are available for the asking. If they can be sent by E-Mail, I will send them for free. Files will be sent attached to E-Mail and zipped up. Text files will be sent in two formats, RTF and TXT. If I have to send files by U.S. Mail, the cost will be $2 per printed file or $3 per photocopied file. I can also send the files on 1.44 MB 3.5 Floppy Discs. For $4 I will send you as many files as you want, as long as they fit on one disc. This is to cover my costs.

NOTES: This is the predecessor to this Newsletter. This text file is several pages of topical headings about the many things we shared with each other, early on. Stories, lore, facts and so forth. Final Update 060196.

E-MAIL LIST: This is a listing of all-known E-mail addresses for On-Line Family, kin and interested parties. It tells their E-Mail addresses, real names and locations, as much as known. It is divided by service provider (AOL, Compuserve, Prodigy, etc.). Updated regularly.

GUNNELLS TEXT: This is a genealogy file I got from GUNNELLS2@AOL.Com. It is very well done and includes some Lunsfords. It has not been updated since I received it in February, 1996.

SIR THOMAS ARTICLE: This is an article from the Virginia Historical Magazine about Sir Thomas Lunsford. It is very interesting and 9-pages long. It details much about Sir Thomas, his family and his military career under King George I. This is only available via Snail Mail (U.S. Mail) (photocopied).

FAMILY FILES: I can export GEDCOM compatible files. If you have the Family Ties program, I can send you the IPW files. I have started a file

FAMILY FILES: I can export GEDCOM compatible files. If you have the Family Tree program, I can send you the IEW files. I have started a file

on everyone who has sent me any information about their branch. I have them titled by E-Mail address, so ask for specific files in that manner. If files have been connected and merged, I will need specific names to locate the file you want. I can send you printed reports, via Snail Mail. These reports merely show name, DOB and DOD of all persons in a given file. I can also print ascendant and descendant trees, if you prefer. These show the same info, but connect up in the classic tree format (they may not include all persons in a given file).

NEWSLETTERS: I retain all previously issued Newsletters. They are available upon request, by issue number. If you know of anyone without E-Mail, or a Computer, and they may be interested in this newsletter, subscriptions are available. $8.75 for 5 issues. $15 for 10 issues. Add 25-cents per issue if you want it sent on disc. A great gift idea! This Newsletter is also available on-line for downloading. On AOL go into the GENEALOGY FORUM and look in either the NEW GENEALOGY UPLOADS or NEWSLETTER LIBRARY. On Compuserve go into THE GENEALOGY FORUM and look in the INFO ON SURNAMES library.

NAMES LIST: This is a list of all names that I have currently included in one family tree or another (see Family Files, above). If you get this list and do not see your name -- or names from your tree -- it is either because you haven't provided me with the info, or I haven't got around to including your info at this time. This is a database file using Microsoft Works 4.0. Updated regularly.

GREAT EXPECTATIONS
Here are details of what is expected in the next awesome issue!

I think I would like to start a letters page of responses from you guys. Not only will I need E-Mail from you, but I need a heading! I'm leaning towards LUNSFILES, right now. And what would you guys think of a survey question every issue? Example, what religion do you ascribe to?

As you may note, the OUTCASTS and NEWBIES sections have been done away with. Current information on family/kin/interested parties' e-mail addresses is available in the E-MAIL LIST (see ARCHIVES).

Next issue will hopefully feature a Mugshot of Eric Michael Lunsford, who is a MACROS expert and has written numerous articles and books on the subject, not to mention software.

I will also have some information about a place in England called Lunsford Cross. I have actually located a non-family member who lives there. I am actively seeking info about this place from him and he is willingly giving me what he can! Maybe I will have some interesting details by next issue!

I will also have information about THE LUNTSFORD FOUNDATION, INC.!

GERIATRIC SUPPORT
This section is to hype those who support my efforts with free items, funds and/or other means. It will also feature items that I wish to sell from my assorted collections, again, to support my On-Line and Genealogy habit. To buy any item(s) noted just send check/money order made out to M.T. Lunsford, POB 671, McDonough, GA. 30253 -- unless otherwise noted. Want to sell something yourself? Ads are $5 per issue, per ad, limited to 50 words each. Thank you for your tolerance. And if you buy anything or have contributed to my cause, thanks for your support!

Well, I said I would do it and here it is! Forgive me for my apparent greediness, but this stuff is a lot of work. Please don't begrudge me if I attempt to recoup costs and maybe even get a little profit by it. This

on everyone who has sent me any information about their branch. I have

Well, I said I would do it and here it is! Forgive me for my apparent
greediness, but this stuff is a lot of work. Please don't begrudge me if
I attempt to recoup costs and maybe even get a little profit by it. This

category will be to present ads or sell things and will ALWAYS be at the end of the newsletter. I plan to trade advertising space for programs, books and whatever -- thus saving me the expense. If these items happen to be Family related, like Genealogy Books, you guys will benefit by these transactions, also! I will also accept ads to aid in recovering the costs of my on-line time. I did not originally intend to start all this Genealogy stuff when I first contacted Lunsfords on the Internet. Nor did I plan to become a spearhead for a Genealogy quest or to publish a newsletter. However, it has worked out that way. I have made it my new hobby!

Don't worry, I will never charge ANYONE for this newsletter via E-Mail! In fact, other than items in this section, everything will remain unchanged. I will only ask for basic compensation outside of this section (like mailing or copying costs). And now -- my first list of sell items!

WIDOWS MITE: An actual 2,000 year old ancient coin, more commonly known as a Lepton. This is the coin referred to in the Bible (Mark 12:41-44). Comes with Certificate of Authenticity. I only have one, but I can get more. $40.

ASSORTED CARDS: Baseball and assorted Sports and non-Sports cards. Including Fantasy Art, Comic and Movie cards. All M/NM condition. 100 different cards for only $5 (that's only 5-cents each!).

OLD CHILDREN'S PUZZLES: These are large piece children's puzzles in a cardboard frame, made by Whitman. Commonly called inlaid puzzles. They are Life Magazine sized puzzles. I have PEBBLES (#4434), CAPTAIN AMERICA (#4531), LITTLE KIDDLES (#4545), QUIK DRAW MCGRAW (#4440), RUFF & REDDY (#4428) & BATMAN & ROBIN (#4518). I also have 2 Disney puzzles, 101 DALMATIANS and THREE LITTLE PIGS, made by Jaymar. There is also a Warren Built Rite puzzle of a Girl and her Dog. There is a smaller sized Xmas-scene puzzle made by Golden Press. All puzzles are fully intact and in pretty good shape, considering their age (1960 - 1966) and purpose. $10 each.

FACTORY SET: The 1992 TSR Dungeons & Dragons 750-card set. Still in box and unopened. $24.95 pre-marked price. This set was out before gaming cards became popular. Last time I saw this set listed, it was valued at $40. My price is $20.

C: Before they had pressure canisters, they distributed the Syrup for fountain c in large glass bottles with a small handle on the neck. Similar to a moonshine jug, but made of clear glass with a screw-on cap. This one still has the label and cap. No syrup. I would guess this is from the early 1960's, if not earlier. $25.

ALBUMS/LP'S: I am converting over, slowly, from vinyl records to CD's. I have a large collection of old Albums. Vinyl records have become a collectible and some record producers still offer special vinyl additions or reprints. Here's a chance to get the original. If you are looking for a specific LP, ask for it by name. Otherwise, just provide a group/artist or category you like and I will send a randomly chosen record. All records are in pretty good condition. They are all in their original covers and have very little, if any, scratching. $4 for one. $3 each for two. $2 each for 3 or more.

CARD SETS: These are complete card sets. They were put together and wrapped in plastic as they were opened by me. I have the following sets -- Star Trek Master Series I (90 Cards, Skybox 1993, 2 sets); Star Trek Deep Space Nine (100 Cards, Skybox 1993, 4 sets); Star Trek: The Next Generation, Season One (108 Cards, Skybox 1994); The Brothers Hildebrandt (90 Cards, 1994 Comic Images, 3 sets); Boris 4 (90 Cards, 1994 Comic Images, 3 sets); Ken Barr: The Beast Within (90 Cards, 1994 Comic Images,

category will be to present ads or sell things and will ALWAYS be at the end of the newsletter. I plan to trade advertising space for progress, books and whatever -- thus saving me the expense. If these items happen to be family related, like Genealogy Books, you guys will benefit by these transactions, also! I will also accept ads to aid in recovering the costs of my on-line time. I did not originally intend to start all this Genealogy stuff when I first contacted Lunaforda on the Internet. Nor did I plan to become a spearhead for a Genealogy quest or to publish a newsletter. However, it has worked out that way. I have made it my new hobby!

Don't worry, I will never charge ANYONE for this newsletter via E-Mail! In fact, other than items in this section, everything will remain unchanged. I will only ask for basic compensation outside of this section (like mailing or copying costs). And now -- my first list of sell items!

WIDOWS MITE: An actual 2,000 year old ancient coin, more commonly known as a Lepton. This is the coin referred to in the Bible (Mark 12:41-44). Comes with Certificate of Authenticity. I only have one, but I can get more. $10.

ASSORTED CARDS: Baseball and assorted Sports and non-Sports cards, including Fantasy Art, Comic and Movie cards. All M/NM condition. 100 different cards for only $5 (that's only 5-cents each!).

OLD CHILDREN'S PUZZLES: These are large piece children's puzzles in a cardboard frame, made by Whitman. Commonly called inlaid puzzles. They are like Masonite sized puzzles. I have FEBRUS (#4134), CAPTAIN AMERICA (#4533), LITTLE KIDDLES (#4534), CUTE COW MCCOW (#4540), HOPE & REDDY (#4412) & BATMAN & ROBIN (#4518). I also have 2 Disney puzzles, 101 DALMATIANS and THREE LITTLE PIGS, said by Jaymar. There is also a Watson Bully-Rite puzzle of a Girl and her Dog. There is a smaller sized Xmas-scene puzzle made by Golden Press. All puzzles are fully intact and in pretty good shape, considering their age (1960 - 1966) and purpose. $10 each.

3 sets); Richard Hescox (90 Cards, FPG 1994). Any one set $10. Two sets $18. Three or more sets $8 each. All sets are fantasy art sets done by famous painters/artists. The only exceptions are the DS9 and TNG sets, which are stills from the TV shows.

MINI-GOLD COINS: This is a commemorative miniature 24K electroplated gold replica of the $20 gold piece first minted in 1905. It is mounted in a display card that has the story of how the design came about on the back. I have three. $5 each.

A lot of people die at 40, but they aren't buried until 30 years later.
-- Ray Spies

I read and browse through a lot of science magazines. Many years ago I read an article that still stands out in my memory. I don't recall the magazine, the researchers or anything like that, but I do recall the topic and what it said.

It claimed that research revealed, any two people on Earth can be connected to each other, through a maximum of four other people. It went on to say that oft times the connection was less people than that (from 3 people to no people in between). It was not referring to genealogy and blood relationships. It was referring to people simply knowing, or being acquainted with each other, on some level. While I don't specifically remember it noting such, I assume it referred to living people.

It stood out to me because the AIDS scare was just beginning and I made me realize how close the disease was, or could be, to me. Another article about AIDS, a few years later, just ingrained this article in my memory. The later article said that the CDC in Atlanta knew of about One Million cases of HIV and suspected there was at least that many more unreported, or yet diagnosed. That meant there were at least Two Million cases of AIDS in the USA. I don't remember what the 1990 Census put the U.S. population at, but I believe it was around 530 Million, which translates into 1 out of every 265 people have HIV, in the USA.

That was scary to me, which is why I remember it. Now that I am more educated on HIV, it is not so scary anymore. Being a Policeman, a high percentage of people I deal with on a daily basis, have HIV. HIV is primarily contracted through immorality (sex, drugs, etc.) and, lets face it, bad guys wouldn't be bad guys if they had good morals. Or good sense and education, for that matter.

But I digress. What this means is that you can connect yourself to ANYONE in the world, directly, or through 4 other people, at most. Example: You could take a hermit in the Tibetan mountains. Someone has met this hermit at some point and knows of him (1). Somebody has visited Tibet and met this person that knows the Hermit (2). Somebody else knows or has met the person who has been to Tibet (3). Somebody has met or knows both this person and you (4). You know or have met this last person. Thus, through 4 other people, you made a connection from yourself, to a Tibetan hermit!

The gist of the article was that it is a small world after all. We are all interconnected on some level. I found this highly interesting and thought provoking. You just wouldn't think that some hermit on some far away mountain could be so closely connected to yourself -- but he is.

When it comes to our little Genealogy quest, I can see this applying in one way. If we can figure out the right connections, we can find the

When it comes to our little Genealogy quest, I can see this applying in one way. If we can figure out the right connections, we can find the

people we need to get to, find out about, or locate!

Now that I am in this Genealogy game, I thought more about this article. Obviously, the further you go back down our branches (go back in time), the less people there were. The further you go back, the more all of our branches will connect into each other until they all finally meet, at the trunk of our tree (Noah).

This is already happening with our branches. The more I find out (from you guys), the more possible links I am seeing in our different branches. So I began to wonder. What would be the maximum number of connecting people, Genealogically speaking? With the same (or variant) last name? It seems that a good portion of our families will likely connect around the late 1700's or early 1800's, if more recent connections are not found. So what is that? 8 to 10 generations for a connection? Maybe each time we can connect, we will remember and count the generations (people), to see. Just a thought.

The first was about W. Bruce Lunsford. Bruce is the Chief Executive Officer of VENCOR, a company that is based in Louisville, KY and operates an integrated long-term healthcare network, that includes hospitals, nursing centers, pharmacies and retirement centers (among other things). Bruce was quoted in a news release concerning his company obtaining four more nursing centers from Excel Care Management out of Marion, IN (July 2, 1996). In July 1996, the company reported record revenues for the quarter ($635 Million).

The next one was about Joe Lunsford out of Atlanta, GA. Joe retired early from AT&T, when downsizing began. He bought a restaurant. In furnishing the place he saw a need to dye the carpet, but could find no one that did such a thing. As a result, he started the business, himself. Using an Avon approach (he comes to you), he created a highly successful business. That business is now has 475 franchises. Perhaps you have heard the name, Floor Coverings International (July 2, 1996)?
I also discovered that we have a family member active in professional sports. Adrian Lunsford plays Arena Football. He is on the Minnesota Fighting Pike and plays WR/DB positions. It seems that in July of 1996, against the Milwaukee team, he returned a kickoff for a touchdown. He also returned an interception for a touchdown.

I promised you last issue that I may have a possible explanation for the origin of our name. As you know, the literal meaning of our name is "one who dwells by the river Luns." Well, there may not be, or may not have ever been, a river called Luns, Lundres, Lune or any such similar name. It seems that the word Loin, in England, means stream, or some similar flowing body of water. It was first referenced in 1160 and evolved into Loon then Lon and then Lune. So, Lune meant stream, not river.

It also seems that Sir Thomas' father, also Thomas, was a Bailiff (manager of lands/properties for the sovereign or landlord) on the Bourne Stream at Hastings for many years between 1607 and 1629. This stream is about 8 miles from Lunsford Cross and is now, apparently, covered and piped down to the sea. Or, as local lore has it, it could have dried up. There were a great many streams in a 10-mile radius of the area around 1100/1300 AD.

Thus, our name may have originated from a river, or stream, but the term Lune is a generic term for a stream, not its proper name.

This new info is all thanks to Paul Kacharia, my contact in Lunsford Cross. He has also found reference to a William Lunsford in Hastings, in the years 1639 and 1662, who was on a committee to manage a school.

You may have noticed that I added the name LONSFORD to the newsletter footer, last issue. I have made contact with a person whose last name is LONSFORD (suspecting that the name was a variant of our family name). This person said, that a few generations ago, the family did, indeed, spell their name LUNSFORD. This person is going to investigate to be sure, but it looks like we have another variant on board! The reason for the change in spelling is said to be mispronunciation and misspelling.

I am still trying to confirm LUXFORD and LANSFORD, but contacts with members of those families have met with negative results, so far.

Ya Know.....
This section is for technical talk, clarifying matters and informational purposes.

As you may note, I changed the title of the "Whaaa...??!!" section to "Family Support." I have also added a section called "Out on a Limb," where I will feature basic info on one of the many branches of our tree (at least, the ones I have any info on).

There is a Lunsford service on the Internet. The service is free, and is basically an e-mail bouncer. What do I mean by that? Well, it is sort of a list server that you send mail to. The list server then "bounces" your mail to everyone else.

You may ask, what good is that? Well, everyone will get your e-mail and you only have to address it to one receiver! Not only that, only those who are interested in the family name, and it's variants, will receive it. This is because you have to SUBSCRIBE to the service to be added to the mailing list(s) of your choice.

It works like this. You want some information. You type up a message explaining your need. You send it to the automated list server (LUNSFORD@rmgate.pop.indiana.edu), they bounce it back out to all their LUNSFORD subscribers, and you wait on any responses. Take note, however, you will get mail, also, from others who send e-mail to the Lunsford list server. So, if you are one of those that hate getting e-mail, don't subscribe. I can tell you, however, I have been on the list over a month and have gotten about 10 to 15 mailings. I received no response to my posting.

This service is free. There are no costs. You just have to subscribe. It is ran by Larry Stephens (LVS@rmgate.pop.indiana.edu), at Indiana University. To subscribe to the LUNSFORD (all spelling variants are included under this heading) list server send E-Mail to MAISER@rmgate.pop.indiana.edu. In the subject line, type anything you want. However, in the narrative, type ONLY the following: SUB LUNSFORD. Do not type anything else, at all. Send the e-mail and you will automatically be added to the mailing/subscription list.

You will be sent a confirmation and instructions on how to use the service, and all it's offerings. Lunsford is not the only surname they have a list for, nor is Genealogy the only topic they provide a list

MUGSHOT
This section will spotlight a family member and/or relative each issue.

Malcolm Alan Lunsford was born April 11, 1936 at 4562 Hayes Street in Gary, Indiana. Malcolm was an "April Fools" baby. That is, he was expected on April 1 but did not appear until April 11. This was a pattern that was to repeat itself later in his life. The attending physician was Dr. James M. White. Malcolm was a large baby, 9 pounds, 8 ounces. Malcolm's father later told him that Doctor White had no anesthesia and borrowed some chloroform, to ease the birth, from a neighbor, Mrs. Cornish. (Mrs. Cornish kept chloroform at home to dispose of unwanted kittens.) His father also said, "It was a difficult birth son. I had nothing to do with naming you. It was your mom's idea!" Malcolm's mother always responded, "I think it's a pretty name." He survived childhood teasing but to this day goes by Mal and many still call him Link, from a high school nick name.

Malcolm's parents are Abraham Lincoln Lunsford and Wanda Buelah (Lambdin) Lunsford. Abraham Lincoln Lunsford did not like his name, dropped "Abe" and went by Lincoln or Link. As a youngster he was known as "Red" because of his auburn hair. Malcolm was not aware of his fathers real name until "Link's" death, when Malcolm went to claim the body from Michael Reese Hospital in Chicago.

Abraham Lincoln Lunsford was the son of Enoch Henry Lunsford and Susan (McCowan) Lunsford. Abraham was born at Beech Grove, Indiana on November 4, 1908 and was one of eight children. Brothers, George, Phil, Jim, Ike, Claude and sister's Mattie and Susan. Malcolm never knew his paternal grandmother as she died when he was a small child. Enoch Lunsford said he was from Mexico, Kentucky and professed to be a cousin of Sergeant Alvin York, a WW I Hero. Enoch was born about 1870. He traveled a lot and worked in many different jobs. Enoch worked on the 101 Ranch in Oklahoma for a period and two of his six sons were born in Ponca City. Enoch moved his family to Elkhart, IN where he and the boys worked in the railroad repair yards as boilermakers. From cowboy to boilermaker? That must have been an interesting switch! Enoch lived at Abraham's home in Merrillville from about 1944 until his death in 1948.

Abraham left Elkhart when work slowed in the railroad repair yards and moved to Gary, Indiana where he went to work at the Sheet and Tin mill, U.S. Steel, as a welder. He later quit the mill and became a pipe fitter, working out of LU 597, in Chicago. "Link" was a general superintendent for Morrison Construction, a major Midwestern contractor when he died.

Wanda Buelah Lambdin was the daughter of Lewis S. Lambdin and Artimissa (Tate) Lambdin. She was born November 27, 1913 in Elkhart, Indiana. Lewis was born July 10, 1867 at Marengo, Indiana. He died on November 5, 1951 in Gary Indiana. Lewis was a retired butcher. He had owned his own butcher shop but went broke during the "Great Depression" of the thirties. Wanda was one of six children having five brothers, Louie, Guy, Gus, Glenn and Ralph. All are dead except Ralph, a retired pipe fitter, who resides in Florida. The family lived in the Danvers, Illinois area for several years. They moved to Gary from Elkhart in 1947. Artimissa had only one eye. The other was lost while trimming a sister's hair with a paring knife. The knife slipped and poked her eye out.

Malcolm had two younger brothers, Donald Lee Lunsford and Brian William Lunsford. Donald Lee, born February 20, 1939, was an electrician out of LU 697, in Hammond, IN. Don was a superintendent for Tri-City Electric, a local electrical contractor when he passed away at age 48. Donald passed away in September 1987 from a malignant brain tumor. Brian was born on March 8, 1947. Brian was still alive the last he was heard from and working as a tele-marketer in Nebraska.

Malcolm married Shirley Ann Clay on September 1, 1956. Shirley is a registered nurse and they were married as soon as she graduated form nurses training. Malcolm came home on leave from the Navy for the wedding. (Their oldest son was born at Portsmouth General Hospital, Portsmouth, VA while he was still in the Navy.) Shirley Ann is the youngest daughter of Maurice (Bob) Clay and Garldine (Ingram) Clay. She has an older sister, Mary Louise. Shirley was born July 21, 1936 in Gary, Indiana. Shirley is related to the statesman, Henry Clay, from Lexington, Kentucky and to Daniel Webster, the statesman and orator. She has a spoon that belonged to his wife Martha Webster. Maurice Clay is from Concord, New Hampshire and moved to Gary to work in the new steel mills. Shirley is believed to be the last of the line as no male children were born to Bob and Gerry. Malcolm and Shirley were blessed with four children, Randy Alan, Bradly Scott, Deborah Susan and Eric James. (Eric was supposed to be another April Fools baby. He was expected on April 1, 1963 but made his appearance on April 11, 1963. Note the similarity to Malcolm's birthday of April 11, 1936.)

Randy works for the local utility company (Nipsco) as a station operator. Bradly is a construction pipe fitter and works out of LU 597, in Chicago. Deborah (Debi Sue) is now Mrs. Hunt, a house wife, a mother of two daughters and works part-time as a waitress at the American Legion fish fry Friday nights. Eric is also a pipe fitter out of LU 597, in Chicago.

Malcolm and Shirley have nine grandchildren; Robert Alan, Ryan Scott, Mark Anthony, (Randy); Amber LeeAnn (Bradly); Christopher Thomas Heylin (deceased), Colleen Shea Heylin, Amy Ann Hunt, (Debi Sue); Todd James and Kyle Matthew, (Eric).

Malcolm graduated from Merrillville High School. He attended several trade schools to learn his craft as a pipe fitter/welder. The trade was good to him and he eventually moved into management. He worked as a project superintendent on many major jobs. His largest was a $50 million project. Malcolm has also worked as project manager on several out of town jobs and as a project engineer. Malcolm was a project superintendent for a major Midwestern contractor when he retired in 1993.

Malcolm is a retired pipe fitter from LU 597, in Chicago. He is on a disability pension due to arthritic knees and has had one knee replaced. (Malcolm said if knew retirement was this nice he would have had his knee replaced a long time ago!) He also has some arthritis in his shoulders and fingers. It makes golfing difficult at times but he still gets out twice a week in good weather. (Malcolm's arthritis is evidently inherited from his mother as she had arthritic knees and a "bad" hip.) His father and mother both died of cardiovascular disease. Malcolm's mother was diabetic. His brother, Brian and Brian's daughter, Angela, are also diabetic. None has developed in Malcolm - yet. Malcolm smoked from the time he was 15 until he was 50 and has some breathing blockage because of it. He also has asbestosis, as do most older pipe fitters.

Malcolm is currently enrolled in a three-year ministry formation program through the Diocese of Gary. The class is through Calumet College and the professors are from the Catholic Theological Union (CTU) in Chicago. This is a prerequisite to becoming a deacon in the Catholic church. Yes,

Malcolm had two younger brothers, Donald Lee Lunsford and Brian William Lunsford. Donald Lee, born February 20, 1939, was an electrician out of LU 697, in Hammond, IN. Don was a superintendent for Tri-City Electric, a local electrical contractor when he passed away at age 48. Donald passed away in September 1987 from a malignant brain tumor. Brian was born on March 8, 1947. Brian was still alive the last he was heard from and working as a tele-marketer in Nebraska.

Malcolm married Shirley Ann Clay on September 1, 1956. Shirley is a registered nurse and they were married as soon as she graduated from nurses training. Malcolm came home on leave from the Navy for the wedding. (Their oldest son was born at Portsmouth General Hospital, Portsmouth, VA while he was still in the Navy.) Shirley Ann is the youngest daughter of Maurice (Bob) Clay and Geraldine (Ingram) Clay. She has an older sister, Mary Louise. Shirley was born July 21, 1936 in Gary, Indiana. Shirley is related to the statesman, Henry Clay, from Lexington, Kentucky and to Daniel Webster, the statesman and orator. She has a spoon that belonged to his wife Martha Webster. Maurice Clay is from Concord, New Hampshire and moved to Gary to work in the new steel mills. Shirley is believed to be the last of the line as no male children were born to Bob and Gerry. Malcolm and Shirley were blessed with four children, Randy Alan, Brady Scott, Deborah Susan and Eric James. (Eric was supposed to be another April fools baby. He was expected on April 1, 1963 but made his appearance on April 11, 1963. Note the similarity to Malcolm's birthday of April 15, 1936.)

Malcolm is a Catholic, one of few on the Lunsford side of the family. Malcolm converted to Catholicism after the death of his mother. Malcolm's wife, Shirley converted two years later. Malcolm is active in his faith and serves on several committees, including the Parish Pastoral Council. He is chairman of the Friends of Migrant Farm Workers at Saints Peter and Paul Parish and serves on the Diocesan Migrant Council.

Malcolm attended church at the Glen Park Church of the Nazarene for a short period while a teen or preteen. He tells of an evangelist coming to his church one weekend. The evangelization was highly promoted. When the visiting minister walked into church, he did create a stir. The evangelist's name was Lunsford and he was a black man. Of course Malcolm took considerable ribbing for some time afterwards.

Malcolm golfs when the weather permits and has a 18 handicap. He also fishes and used to hunt big game but lost interest in the latter. He likes all forms of music but a little bit of country goes a long way. He prefers "easy listening" and "smooth jazz." Classical is okay if he is in the mood. Favorites are Mannheim Steam Roller for instrumental music and Mariah Carey for vocalists.

Malcolm is a ham radio operator and holds an Amateur Extra Class license. His call sign is WN9L. His previous call sign was WB9YOW. He is also a computer "hacker" and has the computer interfaced to his radio equipment. He is the state Army MARS Traffic Coordinator and utilizes his computer expertise to disseminate the messages to and from the service men and women.

Malcolm was raised a Master Mason in June 1958. He joined the Consistory at the Valley of South Bend, Indiana in 1967. He was initiated into the Shrine in 1970 at Orak Temple, now in Michigan City, IN. He is past captain of the motorcycle unit and rode a Harley Davidson in parades and competition until having his knee replace on April 4, 1994. Malcolm is also a member of the Knights of Columbus, Monsignor Ryder Council, Merrillville, IN and a member of the Fourth Degree Knights of Columbus, Abraham Lincoln Council. Malcolm is a member of the American Legion, Post 430; a member and on the board of directors for the Lake County Amateur Radio Club (LCARC); a volunteer for the American Red Cross of Northwest Indiana and serves as the communications chair.

Looking for answers? Connections? Information? Then this is the place! Feel free to ask any and all questions here. Hopefully, you will get an answer by the next issue!

Cuzzin Thomas Lunsford (73321,1073@Compuserve.Com) is looking for any info on his branch of the tree. He provides the following information. His father was John David Lunsford b1935 d1972 (plane crash). His grandfather was John Henry Lunsford, married Mary Cannon (surname not specified) and still living. John Henry had brothers and sisters in IL, MO & KS. I show no matches in my current files.

Cuzzin William "Bill" Lunsford (75243,1614@Compuserve.Com) is also looking for more on his branch. Specifically, he is looking for info on David Lewis Lunsford b1818, d1887. He married a Caroline Bannerman in 1847. Their children were Elizabeth b1850, George Louis b1851, Walter b1855, Arthur Mill or Milton b1857, Franklin David b1862, Mary or Mae Iseadore b 1862 and Walker b1863. He lists Franklin and Mary as both being born in 1862, 3 months apart, which is not possible. I show a number of Elizabeth's. I can only place one in that time frame and she was Elizabeth "Liz" Belle b1854 (contact Cuzzin Roland, at RJHeddin@Aol.Com). I have a Walter Elonza b1881, in my tree. I show several similar names, Mary I., Elizabeth & George -- no dates -- in the line of Cuzzin Martha (MRongey@Aol.Com), that looks like too much, for coincidence.

Cuzzin Kimberly Gallant (Mattius1@Aol.Com) seeks info on an ancestor of hers. Her ancestor is Moses Lunsford. She says that Moses just appeared in Mason County, KY in the late 1700's or early 1800's. Her family lore has it that he came from VA, but that has not been proven. He purchased land in what is now present day Dover, KY. The 1820 Census shows that he had a son named John. There is nothing on their spouses, birth dates and so forth. It is believed that John had a son named John, also. The second John had 3 daughters and a son named Clarence, who married a Jessie (no surname known) around 1915. They had a daughter and a son named Lawrence b3/1918. Lawrence married Geraldine Germann. Kimberly's dad is their son. He is James Melvin Lunsford, b0220 1942. He grew up on the farm that Moses had bought so long ago. The farm was sold in the 1980's. I can only suggest contacting Cuzzin Harold Helms (sundance@neosoft.com), as I believe he mentioned a Moses, once.

Cuzzin Don Webster (DRW Gen@Aol.Com) seeks information on his relative, Susannah Storm. Susannah Lunsford married Isaac Storm, Sr. on 0918 1803. They had twelve children together, with Isaac Storm Jr., b1817, IN, being one of them. Junior married a Mary Lunsford, on 0210 1836. Mary died the day after giving birth to their daughter, Mary Storm, b0209 1837. Isaac Jr. then married a Parthena "Polly" Denny, who are in Cuzzin Don's direct line. Don descended from one of Juniors and Parthena's 5 children

(specifically, William H. Storm). Parthena died about a month after giving birth to their 5th child, Isaac, b0122 1845. Junior than married a third time! This time he married Sarah Lunsford on 0315 1845, sister of his first wife. He and Sarah produced then more kids! Cuzzin Don needs help in locating the parents of Susannah. If my files are right, this Susannah was b1784 and d1863. I can place no other Susannah's in this time frame.

Believe It or Not
Got a good story involving kin folk? Share it with us! Funny, sad, weird or interesting stories -- or lore -- will be shared here.

Well, no one has sent any tall tails, so I will borrow one from the news, passed on to me by my brother, Stacy. It has nothing to do with our family, but what the heck? This is a true event, folks!

It seems that a body was found in California. The body was skeletonized and was found in the middle of a forest. Nothing unusual, so far, but the body was in a burned out forest. The unusual part is that the skeleton was wearing a complete scuba diving outfit!

Officials did their job well, and figured out how this body got there and why it was in a scuba diving suit. It seems that the poor guy was out scuba diving in a lake. At the same time there was a forest fire. One of the methods of fighting forest fires is dropping water on them from high above. The water is dropped by amphibian aircraft, that, yes, land and scoop it up out of lakes. It seems this poor guy was scooped up by one of these planes and then dumped out over a burning forest!

There is nothing funny about death, but I can't help myself. This poor guy didn't have a chance. He goes diving and dies because he fell out of an airplane into a forest fire! Can you imagine his widow trying to collect on the insurance?

Adjuster: You say you want to file the claim on your husband's life insurance? Okay, but I will have to ask you a few questions. First off, and I apologize for having to ask, but how did he die?

Widow: He was scuba diving.

Adjuster: Oh. Did he drown? Sharks? A boating accident? I'm sorry, but the forms require the exact cause of death.....

Widow: Well, no, not those. He fell out of an airplane. He had his oxygen tanks, but he didn't have a parachute.

Adjuster: Uhh, I believe you said he was Scuba diving?

Widow: Well, yes, he was.

Adjuster: Hmm. You mean to tell me he died while scuba diving because he fell out of an airplane?

Widow: That's right. And if the fall didn't kill him, the fire most assuredly did.

Adjuster: Excuse me?

Widow: The forest fire.

Adjuster: I see. He died because he was scuba diving and fell out of an airplane, and if that didn't kill him, a forest fire did. All right. Well, I tell you what. I know the shock of his death must have you over wrought. Why don't you go home, get some rest, and let me contact some

other family members to take care of these details, okay?

FAMILY REUNION
Connection made to others? Connections made in your own branch of the Tree? Lets talk about it here!

Cuzzins Dwight and Karen Yates (76653,2011@Compuserve.Com) managed to make a connection with Cuzzin William "Bill" Lunsford (75243,1614@Compuserve.Com). They managed to connect through Rueben Lunsford, Sr., b1765 and his wife Mary/Margaret Dennison b1770. The Yates have Dwight Lunsford in their line, who descended from Rueben's son, William Lunceford, while Cuzzin Bill descended from Rueben Lunsford, Jr., who was married to Elizabeth Climner! Despite the spellings, Reuben Lunsford and William Lunceford were brothers.

In MEMORIUM
Has a relative passed on? If so, lets honor and grieve for them, here.

This was taken from the Atlanta Journal-Constitution. "Mrs. W. K. (Helen) Lunsford, Jr., age 72, of Covington (GA) died August 15, 1996. She is survived by husband W.K. Lunsford, Jr., Covington; sons Mr. William K. Lunsford III and wife, Melinda, South Carolina, Mr. Lewis Robert Lunsford, Snellville (GA), Mr. John Graves Lunsford and wife, Kathy, Jacksonville, FL; sister Mrs. Jeanette Almand Baker, Fayetteville (GA); grandchildren, David, Travis and Anna Lunsford; several nieces and nephews. Funeral services will be held Sunday, August 18, 1996 at 3:00 p.m. from the chapel of Harwell Funeral Home with Rev. Tom Elliott and Rev. Guy H. Wilson officiating. Internment, Covington City Cemetery. Flowers accepted or donations to your favorite charity."

Judging by where she lived, she is probably a member of my branch of the tree, but I did not know her.

WHAT A WEB WE HAVE WEAVED
This section is to highlight family related web-sites on the World Wide Web (Internet). Don't just read about it, go browse it!

LOCATION: www.gentech.com/~employee/john/home.htm

This web-site is by John Lunsford (jlunsford@gentech.com). The home page even shows a nice portrait photo of him. John's page centers on his favorite entertainment topics. I enjoyed his page so much, that I marked it as one of my favorite places!

Not only is the page well-designed, but it features colorful icons and graphics. The home page serves as a link to nine sub-pages. Among them are topics that are right up my alley of interest!

These sub-pages, in turn, have links to many other web-sites. He has pages dedicated to Babylon 5, Star Trek/Star Wars, WWW Search Engines, Other Entertainment (Blade Runner, Lucas Arts, Phantom of the Opera), Porsche (the car), Web Sites of Special Interest (Library of Congress, Planetary Society, Governmental Sites) and his very own quote page.

The Babylon 5 page is the most extensive. My favorite page had to be his quote page. As some of you may have noticed, I include a quote in the SMALL PRINT, at the end of each issue.

OUT ON A LIMB
This section will be used to detail on of the many branches on our great tree. Hopefully it will help us make connections and fill in the blanks! The information will be basic. Only full known names, dates of birth, dates of death, spouses, parents and children will be noted. If you wish more complete information, see the ARCHIVES section, for information. The

format used will number the people in the branches. A single digit means first generation. two digits means second generation, and so forth. Information that may be left out is: places of birth and death, marriage dates, maternal lineage's, personal information, additional spouses, burial sight and similar.

This first time out, I will provide you details on my branch of the tree!

ARCHIVES
This is a list of available files and things that I have. They are free for the asking, if they can be sent attached to E-Mail. Files will be sent zipped up. Text files will be sent in two formats, RTF and TXT. If I have to send them by U.S. Mail, the cost will be $2 for printed files or $3 for photocopied items. Files can also be sent on a 1.44 MB Floppy Disc, 3.5 inch, with as many files as you want, as long as they fit on a single disc. $4 per disc. These fees are to cover costs.

NOTES: This is the predecessor to this Newsletter. It is a text file is several pages of topical headings about the many things we shared early on. Stories, lore, facts and so forth. Final update 060196.

HOUSE RULES: This is our House Rules along with some helpful information.

E-MAIL LIST: This is a listing of all-known E-mail addresses for On-Line Family, kin and interested parties. It tells their E-Mail addresses, real names and locations -- as much as is known. It is categorized by service provider (AOL, Compuserve, Prodigy, etc.). Updated regularly.

GUNNELLS TEXT: This is a genealogy file I got from GUNNELLS2@AOL.Com. It is very well done and includes some Lunsfords. It has not been updated since I received it in February, 1996.

SIR THOMAS ARTICLE: This is an article from the Virginia Historical Magazine about Sir Thomas Lunsford. It is very interesting and 9-pages long. It details much about Sir Thomas, his family and his military career under King George I. This is only available via Snail Mail (U.S. Mail) (photocopied).

FAMILY FILES: I can export GEDCOM compatible files. If you have Family Ties, I can send you the IPW (tree) files. I have started a file on everyone who has sent me any information about their branch. I have them titled by E-Mail address, so ask for specific files in that manner. If files have been connected and merged, I will need specific names to locate the file you want. I can also send printed reports. These reports merely show name, DOB/DOD of all persons in a given file. I can also print ascendant and descendant trees, if you prefer. These show the same info, but connect up in the classic tree format (they do not necessarily show everyone in the file and can run several pages).

FONTS: This is a collection of all the fonts that I use to create this newsletter! If you do not have these fonts installed on your system, then you will only see the "default" font from your computer. If you want to

be able to view this newsletter in all its' glory, ask for the fonts! Contains 18 fonts. All of these fonts, as far as I know, are freeware.

NEWSLETTERS: Back issues are available upon request. If you know of anyone who may be interested in this Newsletter and does not have an E-Mail address, or a Computer, subscriptions are available! $2 for any single issue. $8.75 for 5 issues. $15 for 10 issues. A great gift idea! If you wish it mailed on a 3.5 floppy disc, add $.25 per issue. This Newsletter is also available for download on-line! On AOL go into the GENEALOGY FORUM and look in the NEW GENEALOGY UPLOADS or the NEWSLETTER LIBRARY. On Compuserve go into THE GENEALOGY FORUM and look in the INFO ON SURNAMES library. Sorry, but Prodigy does not allow uploads. It may take a few days before new issues appear.

NAMES LIST: This is a list of all names that I have currently included in one family tree or another (see Family Files, above). If you get this list and do not see your name, or names from your branch, it is either because you haven't provided me with branch info, or I haven't got around to including your info at this time. This is a database file using Microsoft Works 4.0. Updated regularly.

NEAT STUFF: These are fun or useful little programs and things I have found on the Internet. These programs are shareware (registration and possible fee required) or freeware (freebie!). Programs are all for PC's, except for one (GZIP). If you have any neat little programs/files, send them to me. By obtaining these programs from me you are NOT buying them or registering them.

GREAT EXPECTATIONS
Here are details of what is expected in the next awesome issue!

As I finish this up, I am getting further confirmation on the "Lunes" information. I also have specific details on how LONSFORD derived from LUNSFORD! The next Mugshot will feature Lynn Anne (Lunsford) Hunt, an accomplished artist. Our English ancestors are said to have been in the business of raising fine horses. It seems we still have family in that business, as I have found one that owns at least one race horse! I have also found a family member playing Collegiate football. And could it be? Is it possible that half of the members of our family, who have EVER lived, are still alive? All this and more!

GERIATRIC SUPPORT
This section is to support this Newsletter by offering items for sale or printing ads from individuals or organizations. To purchase any item(s) listed, send check/money order made out to M. T. Lunsford, POB 671, McDonough, GA. 30253, unless otherwise noted. Want to sell something yourself? Ads are $5 per issue, per ad, limited to 50 words each. Thank you for your tolerance and support!

COLLECTORS CARDS: 100 all-different sports/non-sports cards. Includes baseball, fantasy art and movie cards. 1985-present. Only $5 (that's only 5-cents each)!

LP ALBUMS: Assorted vinyl 33 1/3 speed albums. Name specific album, artists or music types. All are in original cover and with little, if any, scratching. $4 for one. $3 each for two. $2 each for 4, or more.

COMICS: Grab bag of five comics from five different publishers -- including Marvel and DC. Not only that, but you will get at least one from the 1970's and one from the 1980's. All comics are in VF to NM and stored in plastic bags. $10 each!

SAMPLER GRAB BAG: A number of single items, or sets, from my various collections. Cards, coins, stamps, LP'S, Cassettes, books, magazines, figurines, comics, 45's and so forth. Like surprises? Get this! At least 5 different items per grab bag! There is no telling what I might send you! $10 each.

SMALL PRINT: This newsletter is organized, written, edited, copyrighted and distributed by M. T. Lunsford, POB 671, McDonough, GA. 30253. Phone number for voice/fax/message, 24 hours a day is 770-946-8466. E-Mail at BonesSgt@AOL.Com. This newsletter is done at no small effort, so your help and support is appreciated. Subscription costs? FREE, BUT ONLY VIA E-MAIL OR BY DOWNLOAD ON-LINE!!! Just ask to be on the mailing list! All rights reserved. This newsletter copyright 1996 by M. T. Lunsford. This newsletter is for your personal use only. You may freely distribute this newsletter as long as there is no financial gain and it remains fully intact. Feel free to upload this newsletter to any local BBS's or on-line services you may be a member of. This issues wisdom: Given the classical definition of insanity, as an inability to distinguish reality from fantasy, we live in a society that, through the media, is trying to make us all crazy. -- John Lunsford, 1993.

GOOD OL' MOUNTAIN NEWS #5 E-MAILED 091196

GOSSIP
This section is the general talk area. Any and all topics not covered in other sections will be addressed here.

The past tempts us, the present confuses us, the future frightens us, and our lives slip away -- moment by moment -- lost in that vast, terrible in-between. -- The late Centauri Emperor (Babylon 5 TV Show).

I had to reformat my computer and lost the "dummies" I had for issues #5 and #6. In fact, issue #5 was practically finished! Resultantly, I will not be able to live up to the promises I made last issue (issue #4, see Great Expectations), as some of the information was lost into cyberspace. I had to start over, from scratch!

I can tell you that two things were definitely lost. One was the info on the racehorse owner. There was a horse that won a race, recently (July 96). The owner was listed as W. Lunsford. That is all I can recall. The other was about a Collegiate Football player. All I can recall is that there was a Lunsford (and a Langford) listed on the final roster of an unknown College Football Team. I believe he was a defensive back.

For those of you who can view any version of this newsletter, other than the TXT version, you can see I have added color! For those of you who have a snail mail subscription, I have a black & white printer, so you will not be able to enjoy the colors.

Any of you who sent me requests for assistance in locating information on ancestors, please send them again. I will put them in a later issue.

And don't miss the excellent offer, the ultimate Xmas gift, at the end of this newsletter!

Just out of curiosity, I decided to see how many people actually get this newsletter. The first four issues (as of 090896) had 53, 50, 53 and 10 downloads on AOL, respectively. On CompuServe, they had 21, 17, 10 and 9, respectively. Since the 4th issue has not been available for download for very long, I can exclude it and determine that each issue is being downloaded about 67 times. My mailing list, currently, includes the following numbers of people: AOL: 148, CompuServe: 91; Other Service Providers: 26; Prodigy 43; WOW 1. I have 3 snail mail subscribers. That is 309 e-mail recipients, 3 snail mail recipients and at least 67 more downloaders, for a total circulation of 379. If each issue is read by one more person, then it is seen by 758 people! And growing! That's not too shabby, eh?

Think back. Think back to the beginning of time. Think back to Adam and Eve. How many years have Human Beings been on Earth? If the time of Noah was about 3000 BC, 5,000 years ago, then maybe 10,000 years? 20,000

The first four issues (as of 030896) had 53, 30, 53 and 10 downloads on AOL, respectively, On Compuserve, they had 21, 17, 10 and 9, respectively. And growing! That's not too shabby, eh?

Think back. Think back to the beginning of time. Think back to Adam and Eve. How many years have Human beings been on Earth? If the time of Noah was about 3000 BC, 5,000 years ago, then maybe 10,000 years? 20,000

years? If we go by archaeological findings, maybe 50,000 years? One thing is for sure. Humans have been around for a very long time. They have been producing one or more children, per couple, all throughout human history. With no birth control, they, in fact, produced a LOT of kids per couple. If they lived hundreds of years, like in the Bible, they had a long time to have a lot of kids!

How many people have there been? Is there any way to tell? One would think this was not possible. However, science and mathematics have advanced to a point that a pretty good guess can be deduced.

As I said last issue, I browse and read through a lot of science magazines. One of the articles I came across made a bold and mind-boggling statement. A scientifically based conclusion that staggers the imagination.

It said that, of all the people who have ever lived -- in the history of mankind -- fully half of them are alive, RIGHT NOW! Mind boggling isn't it? An old Almanac I have, projects the world population to hit 6.35 Billion by the year 2000, so lets call it, say, 5.93 Billion right now (1.7% population growth). This means that there have only been 11.8 Billion people who have ever lived, and half of them are still breathing.

Translating this into Genealogy, you can logically assume that half of all Lunsfords (and the variants), who have ever lived, are alive right now! If we can locate them and get enough information to drop them in our tree, our job will be half-done! The huge canopy, at the top of our tree, will be complete (with new branches sprouting for each new birth)!

Amazing, is it not? But it doesn't end there, by any means. If we can fill half of our tree with those who are living, it would not be much of a task to fill in a large portion of those who have passed, as far back as the early, 1800's. In fact, you wouldn't have to research a single land deed, marriage record, cemetery, newspaper, census report or anything!

How? Just ask! Before I looked into my branch, I could tell you my siblings, their spouses, their kids, my parents, their siblings, many of my cousins, my grandparents, two of my great-grandparents, and some of my grand uncles/aunts. All from just knowing who they are/were. I could also tell you others that I knew I was related to, but I wasn't sure how. On both the maternal and paternal sides of my tree! The same goes for most anyone. The older they are, the further they can take you back, just from memory. Just like I could have taken you back 3 generations in my tree, they can probably do the same. In fact, they can often clear up confusion from misinformation, or conflicting information, that you may have dug up in your research! They may not remember full names, maiden names or dates, but they can certainly fill in some blanks!

As I see it, this revelation (re: half of the people who have ever lived are alive now), means that we can fill-in 65%-75%, or more, of our great tree!

Cuzzin Warren J. Lunsford (lunsforw@fcae.acast.nova.edu) wrote and told me that he has done a little research and understands that there are approximately 10 Million of us! He did not cite his sources, but I find this hard to believe. It would seem that numbers like that would be reserved for more common names like Smith and Jones. However, if he is right, it could mean there have been 20 Million of us, throughout history.

To the contrary, someone else wrote me (I lost the information on who) saying there were only about 10,000 of our family households, worldwide. This person claimed the research was from a relative. Further, this person said that the research went so far as to claim that most of our family population centers around the North Carolina area, of the USA. If I remember right, I believe this person also said that there are no family households left in England, at all. Judging by this research, and giving each home 5 persons (which may be a low average for our prolific family), we get a family population of 50,000. This sounds more reasonable, to me. On a historical basis, this would mean there have only been 100,000 of us throughout history.

Lou Ann Lunsford (LAPL@worldnet.att.net) has sent out an open invitation to a family reunion in Pioneer Park, in Lufkin, TX. It will be held on September 21, 1996, starting at 9AM and lasting to whenever. Meet in the yellow stone cottage with the front porch.

The reunion was started many years ago by the children of Columbus Allen Lunsford, b2/19/1882 TX. Lou Ann is the wife of Woodrow Lunsford Jr., son of Woodrow Lunsford, Sr., son of Columbus (who was married to Lula Ann Lowe, b5/25/1884 TX). Columbus can be traced on back to Ephraim Lunsford, b1766 SC, (George Marion Lunsford, b7/7/1851 AL to James Pierce Lunsford, b1834 TN, to Aris Lunsford, b1800 SC to Ephraim).

HOME SCHOOLING
This section is for technical talk, clarifying matters and informational purposes. I learn something new everyday, and will share my enlightenment, here!

If you think that education is expensive, consider what ignorance costs.
-- Peter McWilliams, 1983.

I have changed the heading of this section from "Ya Know....," to "Home Schooling." I did this because it was more of an information/knowledge sharing category, anyway. I plan to expand this section. After all, there is another tree we can all share -- the Tree of Knowledge.

The more I think about Genealogy, the more I realize that it is far more than just knowing who your ancestors were. The more you research and investigate, the more you get involved in history. It is traveling in time! Perhaps some ancestors were involved in historical events. If they were, it means nothing unless you know about that event.

For instance, if you don't know about the Battle of Hastings (see issue #3), then you need to look it up and understand what is was about, it's significance and it's effects. Or maybe you don't know about King George I and how he was overthrown?

Our Family originates near Hastings, and very near Ninfield, where William the Conqueror planted his flag on Standard Hill (Battle of Hastings). The area that is now Lunsford Cross was given to Robert of Eu, by William the Conqueror. William the Conqueror, once victorious, had a major survey/census done that contains a wealth of information -- especially for historians, genealogists and other researchers!

Sir Thomas, and his brothers Sir Herbert and Sir Henry, were three of King Charles I military leaders. Sir Thomas was a fierce and feared warrior throughout England, who was once in charge of the Tower of London. He was ousted from the post by politics and was resultantly knighted by King George I, as recompense.

No matter what you discover, Geography will always come into play. Land deeds, counties, states and countries of origin and more. You will discover not only your tree, but the origins of towns. For instance, Lunsford Cross probably originated around 1547 when John and Mary (Sackville) Lunsford made it their home place (Lunsford Manor). The land was owned by the Sackville family, having been eventually passed into their possession after it was given to Robert of Eu, by William the Conqueror.

Theology and archeology will also play a role. The Bible, more and more often, is being proven factual with each new archaeological discovery. It also contains a lot of information about genealogy. Old Bibles often contain family tree information.

In order to do all this, you need some level of education in many areas. You need to know how to read and write. You need to know how to do research. You need to know how to organize and file information. Math is involved (figuring ages, years of birth etc.).

The way I see it, Genealogy is an all around education, if not an all around educational tool. It can be used to perk our own, and our children's interest. It can be used to give ourselves, and our children, a sense of self and pride. Good or bad, a colorful, famous or infamous ancestor, stirs the mind.

I am constantly learning something new. I seem to have a unique way of looking at things. I feel that we all live, basically, conservative lives, but oft times have a moderate or liberal education and attitude. Myself, included. I find it deeply interesting to learn the TRUTH about things, and realize my own misconceptions, erroneous assumptions and ignorance. I have found that, more often than not, the truth is not what we believe it to be. It is not what we are taught, nor are led to believe.

I see education lacking in today's society, at least here in the USA. I see a deep need for someone to teach logic, common sense and integrity. To teach facts, not ideologies. I see a need for government to promote responsibility and competence, rather than affirmative action and dependency. I see the media report things in slanted and incomplete manners. As a policeman, I can verify, firsthand, that the media never gets the facts exactly right. I often feel this is deliberate, and for the life of me, I can't understand why. An example is the article that the Atlanta Journal-Constitution did on me (detailed in the 3rd issue of this newsletter), I told the reporter that Sir Thomas was the most infamous of our ancestors. I told her he was a Knight and she printed that he was a Pirate. Figure that one out.

I take a great interest in knowing the truth and the true facts. I go through great pains to cite the facts I know, as clearly as possible. Of those "facts" relayed to me, I purposely cite my source and explain what was told to me, should there be misinformation (and if so, the right person will get the credit for the bad information). I go to great lengths to be fair to everyone, whether I like them, or not. I do my best to keep myself abreast of the facts and to keep others abreast, also. I try to read between the lines for the truth and to ferret out deception and misinformation. I am often mislead and misinformed. When this happens, I feel like an idiot and become even more cynical about trusting certain people, no matter who they are. I see high levels of near-illiteracy and incompetence. As a Police Supervisor, I proof read and sign-off on reports. I find that the Officer that can put together good sentences, organize a topic and spell -- is a rare commodity. In

As a Police Supervisor, I proof read and sign-off on reports. I find that the Officer that can put together good sentences, organize a topic and spell -- is a rare commodity. In

that the Officers in my Department come from all over (California, Louisiana, Florida, Ohio, Michigan, New York, etc., etc.), I can safely assume that it is a national problem, not a Georgia, or Henry County problem. I am one of only three native Henry County residents that works for the local Police!

It is election time, lets take Politics as an example. It reflects largely on how big of a wrong turn our society has taken. Bill Clinton, our President, smoked dope, cheated on his wife, dodged the draft and is very likely involved in past criminal activity (White Water). He changes his stance on issues as quickly as he can blink his eyes. Yet he is portrayed in a good light by the media. Much of his lies, deceit and mishaps are ignored by the mass media and go unreported, or are outright avoided. Instead they focus on his love of french fries or some other unimportant and non-pertinent issue. Bill Clinton, based on the media coverage, will probably win re-election over Bob Dole. Bob Dole, who did not dodge the draft. Who is a wounded and decorated war hero. Bob Dole who is portrayed by the media as an spiteful old scrooge that grew up with the dinosaurs and who wants to take America a few steps backwards. I ask you, when did infidelity, drug abuse and draft dodging become honorable? And when did dedicated service, determination and integrity become undesirable?

I am not campaigning for Dole, here. I am not particularly pleased with him being the Republican nominee (I preferred another), but ANYBODY is better than Clinton! I am just trying to make a point. Look behind the glamour. Look beyond the media focus. I don't know how many times I have watched the news and told my wife what would come out, when the truth was discovered (if, that is, the press decided to cover it and reveal their deceptive reporting). 8 times out of 10, I am right.

Just recently we had a car hit an object in the road on I-75. The station wagon was loaded down with a black family, who had a lot of kids (I think there were 15 in that car). The car caught fire. People caught fire. It was a horrid tragic scene. It was so bad that we blocked off I-75 and landed Life Flight helicopters on the interstate, to carry off the seriously burned victims.

The father of this group escaped the car uninjured. He showed no emotions that I could discern. Meanwhile, complete strangers stopped and helped put out his wife, who was on fire. She had rolled on the ground trying to put herself out, but she rolled in a gas trail. Strangers also tried to pull a baby out of the car, but the car flamed up and exploded before the baby could be saved.

I told my wife that if we are ever in a fire, she can rest assured that I will die trying to save the kids and her! I admit to looking at this father with contempt. I saw a man, that night, that I decided -- on the spot -- was selfish and self-serving. A man who used his color and his own family, to benefit himself. I was right. The news dug up an old story where he was portrayed as a poor black man, trying so hard to provide for the large family he loved (but was having a hard time because he was black). The story got him a lot of help and exposure. The family he loved so much, suffered tragically, while he remained unharmed.

I like learning and being enlightened. I like seeing the truth. I like improving myself on the mental level. There is no denial and misplacing of blame, with the light of truth. The sense of right and wrong, is not questioned. Responsibility is clear. I feel I will enjoy passing on such things here. Whether it is related to Genealogy or not, it is certainly related to the enlightenment and education of ourselves and our children. Maybe I can even stir the pot and get you guys to start putting your 2-cents in!

This time out, let me state some facts that will surprise you. The media and the Democrats are touting how Republicans are going to poison the Earth. Today's schools actually teach environmental issues over fact. I am not against conservation, recycling or protecting nature reserves. However, it is not as bad as the media and the powers that be, want you to believe.

They say the world is booming in population and we will breed ourselves into extinction and starvation. The truth is that the growth rate has actually decreased to about 1.7%, from 2% in the 1960's. World food supplies are actually growing faster than the population. Virtually all of the world's hunger is a result of politics (war, food being used as a weapon in civil conflicts and food production/distribution being in the complete control of government regimes). Take Bosnia, as an example. Think back to how the warlords were/are controlling food resources and shipments. Look at Iran. Throngs of soldiers surrendered in the Gulf War, just to get fed! All that money Hussein has for weapons and war, yet his soldiers surrender because they are starving!

They say that the Earth is going through a global warming, threatening to melt the ice caps. We are using too much combustible fuels that cause acid rain and are depleting the oil reserves and forests of the world. The truth is that the slight 1 degree (centigrade) rise in global temperature, took place between 1880 and 1938, when the use of fossil fuels was not so common. Since 1979, the global temperature has remained stable, or has slightly decreased. The largest scientific study done on acid rain, by the National Acid Rain Assessment Program (done at a cost of $500 Million, over a 10-year period, to us tax-payers), concluded that there was no "ambient" evidence of widespread forest damage from current levels of acid rain. In fact, rain is naturally acidic, anyway!

And the oil? It seems that we have about 15-years worth of oil, in known wells. However, they are discovering more oil wells each day. This does not mean, however, that we should not strive to explore our options with alternative fuels, fuel saving practices/designs and so forth! As for the trees, more trees grow in the USA, than are cut down, each year. Not only that, but we have more trees in the USA, than we did in 1920. Granted, they may not be as tall standing, but they will grow.

I know I sound like a Republican. I know they are saying the Republicans will cut Medicare, welfare and on and on. Keep in mind, that the Republicans have not ran things in 40-years. The Democrats have had a majority, that long. So, of all of the problems you see, all the problems that currently exist, you can only blame the Democrats. They had to create and pass the laws and programs that have led us to where we are now. And by the way, I vote for who I like best, no matter the party. I purposely vote back-and-forth as a Republican and a Democrat in Primaries (you have to declare one or the other in GA, in the primaries). In the final election, I take notes from newspapers and organizations about the candidates. I then decide who I like best. It is very often the lesser of two evils, but I don't vote for them based on their party. In fact, based on a little political program I found on-line, I am a Libertarian, bordering being a Conservative. While I like Rush Limbaugh, I do often have some reservations about certain things he reports or says. More specifically, things I feel he has purposely ignored.

This will not be a political platform. I just chose to use politics because it is election time. However, politics are a big part of everything in our society, and are, therefor, unavoidable.

Get the facts. Don't take what you hear as fact, just because it is reported on TV, in the newspaper, noted by an Official or told by a

This time out, let me state some facts that will surprise you. The media and the Democrats are touting how Republicans are going to poison the Earth. Today's schools actually teach environmental issues over fact. I am not against conservation, recycling or protecting nature reserves. However, it is not as bad as the media and the powers that be, want you to believe.

They say the world is booming in population and we will breed ourselves into extinction and starvation. The truth is that the growth rate has actually decreased to about 1.7%, from 2% in the 1960's. World food supplies are actually growing faster than the population. Virtually all of the world's hunger is a result of politics (war, food being used as a weapon in civil conflicts and food production/distribution being in the complete control of governments (replaced). Take Bosnia, as an example. Think back to how the warlords were/are controlling food resources and shipments. Look at Iran, Congo of soldiers surrendered in the Gulf War, just to get fed! All that money Hussein has for weapons and war, yet his soldiers surrender because they are starving!

They say that the Earth is going through a global warming, threatening to melt the ice caps. We are using too much combustible fuels that cause acid rain and are depleting the oil reserves and forests of the world. The truth is that the slight 1 degree (centigrade) rise in global temperature, took place between 1880 and 1938, when the use of fossil fuels was not so common. Since 1979, the global temperature has remained stable, or has slightly decreased. The largest scientific study done on acid rain, by the National Acid Rain Assessment Program (done at a cost of $500 Million, over a 10-year period, to us taxpayers), concluded that there was no "endemic" evidence of widespread forest damage from current levels of acid rain. MUGSHOT
This section will spotlight a family member and/or relative each issue.

Lynn Anne Lunsford was born in San Jose, California in August of 1953 to Marian McClue and Wilbur Gordon Lunsford. Her mother was born in California and is of German and Scottish descent. Her father was born in Jeffersonville, Indiana a small town outside of Louisville, Kentucky. Her paternal grandfather worked as an executive for the Nabisco Company and moved to California around 1930. Lynn's parents met at San Jose State University and married in 1942.

Lynn spent her childhood in Southern California (towns such as Pasadena, Upland and Arcadia) because her father worked for various newspapers in the area, mostly in the advertising departments. She remembers going with her father to work and watching the typesetters and huge presses run with their giant rolls of newsprint.

Her childhood was accompanied by two older brothers: Stephen (who was featured in the Mugshot, in the 2nd issue) and Allan. Summers were often spent with them on day trips to the beach and Disneyland. Stephen now resides in Lompoc, in central California, and after retiring from twenty years with the Air Force, has become a professional photographer. Allan has homes in Colorado Springs, Colorado and Newport Beach, California and is an entrepreneur/business man, mostly in land development.

Eventually Lynn's father moved to northern California and purchased a chicken hatchery and feed store. This he eventually converted over to a pet store where Lynn and her brother Stephen spent much of their time after school and on Saturdays. The store was sold in 1975, when her father retired.

After graduating from High School in 1971, she attended Chabot College in Hayward, Ca. and took courses in the commercial art field. She eventually went to work in the banking field and met her husband, Thomas Hunt, whom she married in 1976. Lynn does not have any children of her own but has three step daughters who are all married and have children, ranging from age 2 years to 15 years old.

Her oldest step-daughter is Jennifer Hunt. She married Robert Ballerini. They have two girls, Karen (11) and Stephanie (15). The middle daughter is Sharon Hunt. She married Tim Broughton. They have a girl (Lisa, 1) and a boy (Casey, 2). The youngest is Carol Hunt. She married Jay Matthews. They have two boys, Mike (4) and David (6). Their mother is Barbara Ketler, who lives near the girls in California.

Shortly after they were married, Lynn and her husband Tom moved to the Santa Cruz area, which is on the Monterey Bay, about an hours drive south of San Francisco. There she continued in the field of banking, working as a branch supervisor and officer until 1987, when she left and enrolled at San Jose State University (majoring in Graphic Design with an emphasis on illustration). She spent her time studying the arts and building up a portfolio of illustration work and graduated in 1990, with honors. After graduation she took some additional courses in scientific illustration from University of Ca. in Santa Cruz (UCSC).

HOBBIES

This section will spotlight a family member and/or relative each issue.

Lynn Anne Lunsford was born in San Jose, California in August of 1953 to Marian McCue and Wilbur Gordon Lunsford. Her mother was born in California and is of German and Scottish descent. Her father was born in Jeffersonville, Indiana a small town outside of Louisville, Kentucky. Her paternal grandfather worked as an executive for the Nabisco Company and moved to California around 1920. Lynn's parents met at San Jose State University and married in 1947.

Lynn spent her childhood in Southern California (towns such as Pasadena, Upland and Arcadia) because her father worked for various newspapers in the area, mostly in the advertising department. She remembers going with her father to work and watching the typesetters and huge presses run with their giant rolls of newsprint.

Her childhood was accompanied by two older brothers: Stephen (who was featured in the Mugshot, in the 2nd issue) and Allan. Summers were often spent with them on day trips to the beach and Disneyland. Stephen now resides in Longpoc, in central California, and after retiring from twenty years with the Air Force, has become a professional photographer. Allan has homes in Colorado Springs, Colorado and Newport beach, California and is an entrepreneur/business man, mostly in land development.

Eventually Lynn's father moved to northern California and purchased a chicken hatchery and feed store. This he eventually converted over to a pet store where Lynn and her brother Stephen spent much of their time after school and on Saturdays. The store was sold in 1975, when her father retired.

After graduating from High School in 1971, she attended Chabot College in Hayward, Ca. and took courses in the commercial art field. She eventually went to work in the banking field and met her husband, Thomas Hunt, whom she married in 1976. Lynn does not have any children of her own but has three step daughters who are all married and have children, ranging from age 2 years to 15 years old.

Her oldest step-daughter is Jennifer Hunt. She married Robert Ballerini. They have two girls, Karen (11) and Stephanie (15). The middle daughter is Sharon Hunt. She married Tim Broughton. They have a girl (Lisa, 1) and a boy (Casey, 2). The youngest is Carol Hunt. She married Jay Matthews. They have two boys, Mike (4) and David (6). Their mother is Barbara Keeler, who lives near the girls in California.

Shortly after they were married, Lynn and her husband Tom moved to the Santa Cruz area, which is on the Monterey Bay, about an hours drive south of San Francisco. There she continued in the field of banking, working as a branch supervisor and officer until 1981, when she left and enrolled at San Jose State University (majoring in Graphic Design with an emphasis on Illustration). She spent her time studying the arts and building up a portfolio of illustration work and graduated in 1990, with honors. After graduation she took some additional courses in scientific illustration from University of Ca. in Santa Cruz (UCSC).

Since her graduation she has freelanced as an illustrator, as well as been employed full time in banking (currently in the legal department). Some general areas she has worked in, as an artist, are book illustration (mainly textbooks -- St. Paul Books, Good Apple Publishers, Addison Wesley Publishers, Christian Research Journal, Hampton Brown Publishers, local newspapers...), magazine illustration and even a stint reconstructing some background illustrations for some of the original Flintstone animation cells. She lives near a man named Preston Blair, who was one of the original animators for Hanna Barbera. He needed the work done so the cells could be published and sent to auction. The copyright to much of her student portfolio has been turned over to an agency in New York (The Stock Illustration Source), that sells her work as stock illustration.

Lynn is an avid reader of newspapers and periodicals. Some of her favorite books are "Trinity" by Leon Uris, "Brideshead Revisited" by Evelyn Waugh and "The Road Less Traveled" by Scott Peck. She also loves movies and films (particularly English period pieces and art films). For music she mainly enjoys classical and jazz. She also has a great love for animals and enjoys gardening and flowers. She, along with her husband Tom, have been quite active in their church, as well.

FAMILY REUNION
Connection made to others? Connections made in your own branch of the Tree? Lets talk about it here!

I have managed to connect Sandra Kimble (SandraK142@Aol.COm) and Laura (last name unknown)(Stevesong@Aol.Com). It seems they both trace back to a Sarah/Lucy Lunsford. Sandra calls her Lucy and Laura calls her Sarah (Lucy?). Sandra says she was born about 1685. The both say she married a Charles, but vary on the spelling of the last name -- Coppedge (Laura) or Coppidge (Sandra). Sandra says the marriage took place prior to 1727 in VA. Laura says that Charles was a Sr., he was b1687, d1750 and was out of Wimcomico, VA. Sandra believes that Sarah's/Lucy's brother was Moses, their father was John L. (who also had a brother Moses) and their father was William.

Perhaps Kimberly Gallant (Mattius1@Aol.Com) can also tie into this tree? She was looking for a Moses, last issue! Her Moses has a son named John, who could have been named after Moses' father, John 9if the same one)!

I also have information on a Moses, b1693, whose father was William, b1671. This William had a brother named John, b1675, who married an Elizabeth Kenner. They had a son named Swanson, b1699. This is from my Sir Thomas file, which I highlight this issue (see Out on A Limb).

The third issue had John Lunsford (2233 Alhambra SW, Albuquerque, NM 87104) looking for info on Naomi Simmons, b1812 and William Lunsford. Not to mention John Lunsford, b1785, Swanson Lunsford and Rebecca Wade. These same names fall in the same time frame and match up with those above.

A definite connection, however, is with Lemoyne W. Wolfe (LWWolfe@Aol.Com) who has Naomi and John in her branch. There is also John Foster (JCF456@Aol.Com), who is looking for info on a Swanson Lunsford. He says that his Swanson served in the Revolutionary war as a Lieutenant with "Lighthorse Harry" Lee's Legion. This Swanson is buried on the South Carolina State House grounds. And then there is Bryce Lunsford (lunsford@cfw.com), who can trace his line back William Lunsford, b4/24/1813, who married Naomi Simmons, b6/22/1812. His line came through yet another son, of theirs, Joshua, b7/29/1840, d10/19/1914, who married a Levina Hevener, b7/31/1845, d7/11/1931.

Could there be a major connection brewing here? I think so! See this issues Out on a Limb, section!

In MEMORIUM
Has a relative passed on? If so, lets honor and grieve for them, here.

Christine Lunsford Ashbrook, of KY, died on January 24, 1996 at the age of 84. She was a nurses aide at Central Baptist Hospital, in KY. (Taken off the Internet).

Mrs. Nettie King, 91, a resident of Montgomery, AL, died Sunday, July 28, 1996. Funeral Services were held July 31, 1996 at 2PM, from New Home Congregational Church in River Falls, AL. Rev. Larry Stewart officiated. A native of Andalusia, she had lived in Montgomery since 1936. She was preceded in death by her husband, Roy Lunsford. Survivors include one son, Lee Lunsford of Huntsville, AL; two daughters, Louise Stokes Parrish and Ruth Horn, both of Montgomery. She had 8 grandchildren. Sheila Harris of Gulf Shores, AL, Sylvia Jordan of Tallahassee, FL, Burke Kelley and Tom Horn of Montgomery, AL, Ken, Dan and Mack Lunsford, all of Huntsville, AL, and Todd Lunsford of San Diego, CA. She also has 12 great-grandchildren and 6 great-great-grandchildren. Andalusia is in Covington County, AL. Most Lunsfords there descend from Ephraim Lunsford, b1766.

WHAT A WEB WE HAVE WEAVED
This section is to highlight family related web-sites on the World Wide Web (Internet). Don't just read about it, go browse it!

LOCATION: www.teleport.com/~zaft/frames.htm

This is the web page of Shane Lunceford (Zaftigsurf@Aol.Com). Shane has a unique set-up to his page. Unlike other web sites, his is done in "frames". The lead page is divided into three "frames". The main frame scrolls down to display all that his site has to offer, in the way of connections to other locations or pages. His site focuses on his business/hobby of Surfing. The right-side frame consists of several buttons that lead you to some of the same locations. One of them tells you to NOT press the button. Take my advice, unless you want to be called a dumb ass, don't press that button! While I am not a surfing fan, I did enjoy the lay-out and design of his web-site. He even has a "Babe of the Week," for your viewing pleasure (not a nude)! Perhaps the most useful part of his site was his web browsing connection! It is a combination page of a number of different web-search engines! Mark this page and you will never be in need of a web-search engine again!

While the new AOL 3.0 uses the Microsoft Internet Explorer 3.0, Shane is a hard-core Netscape Navigator 3.0 supporter. None-the-less, I was able to enjoy his site with the AOL/Microsoft browser. Drop in and sign his guest book!

If you can't get rid of the family skeleton, you might as well make it dance. -- George Bernard Shaw.

LOCATION: www.armory.com/~caroline/

This sight is the home page of Caroline Lunsford (caroline@sco.com), who, as I understand it, is the sister of Jerry Lunsford (I covered his web page in the third issue of this newsletter). Caroline's web-site is simple, plain and straight forward. She starts out by offering her resume and providing a connection to her employers home page. Her employer is SCO. They specialize in UNIX Software. Her greatest interest lies in her dance/performance troop, Seabright Morris. She even serves up some photos. She goes on to discuss her unusual combination of interests and provides some connections to related web-sites..

OUT ON A LIMB
This section will be used to display bare facts information on one of the many branches in our great tree. Hopefully it will help us make connections and fill in the blanks! Only full known names, years of birth, year of death, spouses, parents and children will be noted. If

you wish more complete information, see the ARCHIVES section, for information. Maternal lines are not included. The format used numbers the people, in the branch. A single digit means first generation. Two digits mean second generation, and so forth.

I thought I would go as far down the tree as I could, this time! This will take us all back to the year 1057 and provide the foundation to build on! I will take you right on up through over 23 generations and 600 years, to Sir Thomas Lunsford and a little beyond! Here goes!

Well, that is it. I could go further, but it will get more confusing. Let me know of any errors and any information you can toss in! I know it is a confusing jumble, but it is organized properly, as described in the small print. I have a feeling this info will help a lot of folks!

ARCHIVES

This is a list of available files and things that I have. They are free for the asking, as long as they can be sent attached to E-Mail. Files. Text files can be sent in multiple formats. If you want them sent them by U.S. Mail, the cost will be $2 for printed files or $3 for photocopied items. Files can also be sent on a 3.5 inch floppy disc, with as many files as you want. $4 per disc. These fees are to cover costs.

NOTES: This is the predecessor to this Newsletter. It is a text file is several pages of topical headings about the many things we shared early on. Stories, lore, facts and so forth. Final update 060196.

E-MAIL LIST: This is a listing of all-known E-mail addresses for On-Line Family, kin and interested parties. It tells their E-Mail addresses, real names and locations -- as much as is known. It is categorized by service provider (AOL, CompuServe, Prodigy, etc.). Updated regularly.

GUNNELLS TEXT: This is a genealogy file I got from GUNNELLS2@AOL.Com. It is very well done and includes some Lunsfords. It has not been updated since I received it in February, 1996.

SIR THOMAS ARTICLE: This is an article from the Virginia Historical Magazine about Sir Thomas Lunsford. It is very interesting and 9-pages long. It details much about Sir Thomas, his family and his military career under King George I. This is only available via Snail Mail (U.S. Mail) (photocopied).

FAMILY FILES: I can export GEDCOM compatible files. If you have Family Ties, I can send you the IPW (tree) files. I have started a file on everyone who has sent me any information about their branch. I have them titled by E-Mail address, so ask for specific files in that manner. If files have been connected and merged, I will need specific names to locate the file you want. I can also send printed reports. These reports merely show name, DOB/DOD of all persons in a given file. I can also print ascendant and descendant trees, if you prefer. These show the same info, but connect up in the classic tree format (they do not necessarily show everyone in the file).

NEWSLETTERS: Back issues are available upon request. If you know of anyone who may be interested in this Newsletter and does not have an E-Mail address or a Computer, subscriptions are available! $2 for any single issue. $8.75 for 5 issues. $15 for 10 issues. A great gift idea! If you wish it mailed on a 3.5 floppy disc, add $.25 per issue. This Newsletter is also available for download on-line! On AOL go into the GENEALOGY FORUM and look in the NEW UPLOADS and/or the NEWSLETTER sections. On CompuServe go into THE GENEALOGY FORUM and look in the INFO ON SURNAMES library. Sorry, but Prodigy does not allow uploads. It may take a few days before new issues appear.

NAMES LIST: This is a list of all names that I have currently included in one family tree or another (see Family Files, above). If you get this list and do not see your name, or names from your branch, it is either because you haven't provided me with branch info, or I haven't got around to including your info, at this time. This is a database file using Microsoft Works 4.0. Updated regularly.

NEAT STUFF: These are fun or useful little programs and things I have found on the Internet. These programs are shareware (registration and possible fee required) or freeware (freebie!). Programs are all for PC's, except for one (GZIP). If you have any neat little programs/files, send them to me, or let me know about them! By obtaining these programs from me you are NOT buying them or registering them.

E-MAIL LIST: This is a listing of all-known E-mail addresses for On-Line Family, kin and interested parties. It tells their E-Mail addresses, real names and locations -- as much as is known. It is categorized by service provider (AOL, CompuServe, Prodigy, etc.). Updated regularly.

GUNNELLS TEXT: This is a genealogy file I got from GUNNELLS@AOL.Com. It is very well done and includes some Lunsfords. It has not been updated since I received it in February, 1996.

SIR THOMAS ARTICLE: This is an article from the Virginia Historical Magazine about Sir Thomas Lunsford. It is very interesting and 9-pages long. It details much about Sir Thomas, his family and his military career under King George I. This is only available via Snail Mail U.S. Mail) (photocopied).

FAMILY FILES: I can export GEDCOM compatible files. If you have family files, I can send you the IBM (tree) files. I have started a file on everyone who has sent me any information about their branch. I have them filed by E-Mail address, so ask for specific files in that manner. If files have been combined and merged, I will need specific names to locate the file you want. I can also send printed reports. These reports merely show name, DOB/DOD of all persons in a given file. I can also print ascendant and descendant trees, if you prefer. These show the same info, but connect up in the classic tree format (they do not necessarily show everyone in the file).

NEWSLETTERS: Back issues are available upon request. If you know of anyone who may be interested in this Newsletter and does not have an E-Mail address or a Computer, subscriptions are available! $2 for any single issue. $8.75 for 5 issues. $15 for 10 issues. A great gift idea! If you wish it mailed on a 3.5 floppy disc, add $.25 per issue. This Newsletter is also available for download on-line! On AOL go into the GENEALOGY FORUM and look in the NEW UPLOADS and/or the NEWSLETTER sections. On CompuServe go into THE GENEALOGY FORUM and look in the INFO ON SURNAMES library. Sorry, but Prodigy does not allow uploads. It may take a few days before new issues appear.

NAMES LIST: This is a list of all names that I have currently included in one family tree or another (see Family Files, above). If you get this list and do not see your name, or names from your branch, it is either because you haven't provided me with branch info, or I haven't got around to including your info, at this time. This is a database file using Microsoft Works 4.0. Updated regularly.

NEAT STUFF: These are fun or useful little programs and things I have found on the Internet. These programs are shareware (registration and possible fee required) or freeware (freebie!). Programs are all for PC's, except for one (GIF!). If you have any neat little programs/files, send them to me, or let me know about them! By obtaining these programs from me you are NOT buying them or registering them.

GREAT EXPECTATIONS
Here are details of what is expected in the next awesome issue!

Next issue I will finally reveal that additional Lunes information, that I promised for this issue! I will present the poem I entered in that contest (see Issue #3), as a couple of you have asked to see it! A Lunsford goes berserk, kidnaps a man, bites the man's ear off and later dies! Another Lunsford is arrested for forging prescriptions! New stuff on Sir Thomas! All this and more!

Genealogists at a family reunion, to relative: "Sorry, but I forgot your name....?"

Relative to Genealogist: "Of course you did, I am not dead yet!"

ATTENTION ALL! E-MAIL ADDRESS CHANGE! While I will maintain my e-mail locations on AOL (BonesSgt), CompuServe (104512,2170) and Prodigy (VLAM73A), I will now use, as my primary address, GOMN@JUNO.COM. It is easy to remember because it is the initials of this newsletter! Please make the appropriate changes in your address books and use this address for all future correspondence with me.

For those of you who do not know about JUNO, it is a FREE e-mail service. It does not give you Internet access. All it does is give you an e-mail address that you can send/receive mail to/from. So, if you are tired of on-line costs just for e-mail purposes, get this service! If you want it, send me your name and snail mail address. I will have the program sent to you! Yes, free. No strings. No costs. They survive off advertisers. The only set-back is that they do not allow attached files, like this newsletter.

Here is a new one. Of all the wild tales I have heard about Sir Thomas, this one was totally new. Many wild stories surround Sir Thomas, most of which you can see the basis for, if you know the real story about him. One person told me he was a Naval Captain who deserted ship in New Foundland to avoid being beheaded by the King (he did come over by ship, and I hear it is possible his grandfather came years before, as a deserter from ship, plus he may have been facing a death penalty at one point). Another told me that he was a Cavalier who was Knighted for his devotion to the King (he was knighted as recompense for being ousted as the Lt. of the Tower of London). Another said he was a pirate called Thomas BloodyBones (as a soldier, he was feared throughout England and referred to as Bloodybones, due to his fierceness). Another told me that he was a cannibal with a taste for young kids (propaganda of the time called his military group the babyeaters and spread the rumor that he was a cannibal, with one flyer depicting a child's arm in his pocket, as he fought).

I have also heard that is was not Sir Thomas who came over, but a Sir Charles, a Sir Timothy or a Sir William. The only valid name I see is William, his son, who likely came over with him.

The latest is that some have him as an English Nobleman, who was exiled to America. That sounds okay, as he was granted land and came to America to claim his property. However, they also have him as a hunchback! With the new Disney movie, "The Hunchback of Notre Dame," it makes a cool rumor, no? It may be true however, that he was lame in the right leg from a war wound.

My good friend Paul Kacharia, in Lunsford Cross, sends some new findings on Sir Thomas! He cites a quote from a reference book called "People of Hidden Sussex." It reads as follows.....

"One Sunday morning in the 1630's Colonel Thomas Lunsford (of Windham Hill) attempted to shoot his kinsmen Sir Thomas Pelham outside East Hoathly Church. He missed his target, was fined 8,000 pounds and fled to France. Returned to England in 1639, became reconciled with his cousin, obtained the King's pardon for his fines and was once more given command of a regiment."

We all ready knew the offense to occur in 1632. We did not know it was in front of a Church, and apparently, before, or during, services! We also knew that they are cousins, but distantly so. It was Thomas' ggg-grandfather, William, who married Cecilia Pelham. However, we did not know Thomas was a Colonel at the time! I had believed his military career had started after this event, in France and abroad.

We also learn that Thomas hailed from Windham Hill (no, not the Manheim Steamroller Label -- haha), which is about 8 miles from Lunsford Cross. Paul notes that there was a George Luxford, also of Windham Hill, who was a loyal supporter of King Charles II (we know that Thomas served King Charles I). Paul made this connection on his own and notes that the family coats of arms are practically identical. Once again, the variant of Luxford comes up as a possibility, but still no verification.

In keeping with the Sir Thomas theme, Cuzzin Allen Lunsford (allen@suzieq.gfsc.nasa.gov) wrote to tell me about something he found on Sir Thomas. Allen was walking through the Shakespeare Museum, in Washington D.C. back in May, 1996. They were presenting news printing in Europe. One of the many examples of story's from the newspaper, "Yesterday's News," was about Sir Thomas! It is from 1642 and reads as follows.....

"A true relation of the late Hurlibury at Kingston upon Thames on Wednesdat the 12th of janua. caused by Collenell Lundsford and the rest of his company and the town fearing they would rise up in repellion. Once came speedily to declare it at London upon which the Traine Band were raised and caused to watch all night for the safety of the city."

Let me try to decipher that. "A true story of recent, from Hurlibury at Kingston on the Thames River. On Wednesday, the 12th of January (1642), Colonel Lunsford and his trained company, from London, caused the town to keep watch all night, in fear of an attack." Does that sound right to everyone?

A place called Kingston-upon-Thames is southwest of downtown London, about half-way between Heathrow Airport and Wimbledon, just south of Richmond Park.

As noted last issue, I have some details about a Lunsford arrested for forging prescriptions. I came across this on the Internet.

Mike Lunsford, 26, of Corbin, KY, for whom Medicaid bought $1.1 million in hemophilia drugs over the last two years, was arrested for allegedly obtaining painkillers with forged prescriptions. Mike was charged in Knox District Court with six counts of passing forged prescriptions and one

As noted last issue, I have some details about a Lunsford arrested for forging prescriptions. I came across this on the Internet.

Mike Lunsford, 26, of Corbin, KY, for whom Medicaid bought $1.1 million in hemophilia drugs over the last two years, was arrested for allegedly obtaining painkillers with forged prescriptions. Mike was charged in Knox District Court with six counts of passing forged prescriptions and one

count of obtaining a controlled substance by fraud. He was arrested on Jan. 11, 1996 at the Rite-Aid Pharmacy in Barbourville, KY.

As I also promised, I have details of a Lunsford that died after kidnapping a man. I also found this over the Internet.

May 5, 1996, around 2 AM, Danny Ray Lunsford, 31, of Lexington, KY, was arrested by police at the St. Joseph Hospital in Lexington, KY. He was arrested on charges of burglary, kidnapping, aggravated assault and so forth.

Danny broke into the home of Rueben Hardin, aged 71, near the hospital. Mr. Hardin was sitting in his den, after midnight Saturday, relaxing after a Derby party at his house on 349 Mockingbird Lane. Danny came through the back window.

Danny took Mr. Hardin and forced him, at knife point, to walk to St. Joseph Hospital, where Danny, foaming at the mouth, held him hostage, beat him and bit him for nearly two hours. He bit off Mr. Hardin's ear before surrendering to police. About 2 hours after he was arrested, he died of an apparent drug overdose, according to the Fayette County Coroners Office.

Family and friends say that Danny was a solid citizen, a good student and a reliable worker. They feel that an argument with his girlfriend, combined with prescription drugs (and possibly other drugs -- he had been hit in the head in a work injury and was on medication, as well as taking pain pills from having 2 teeth pulled) must have somehow made him snap. His sister, Ruby Higgins, of Nicholasville, KY, says he was liked everywhere he went. His father, Buford Lunsford, also of Nicholasville, KY, said he was an outstanding person.

Danny was studying to become a nurse, attending Lexington Community College. He worked at Roadway Packaging Systems (where he received the injury).

The fear of the Lord is the beginning of wisdom, and knowledge of the Holy One is understanding. For through me your days will be many and years will be added to your life. -- Proverbs 9:10, 11.

Here is a lesson I have learned in the world of Computers and the Internet. Computers, as you may know, operate on bits, specifically 8-bits of data. However, the Internet operates on 7-bits of straight text data. Resultantly, anything sent out over the Internet has to be sent in a 7-bit format (ASCii, BinHex, uucode, btoa, MIME, etc.). The reason for this is because programs, images and so forth contain 8-bit binary codes that can not be "read" by most E-mail programs -- which are designed to handle 7-bit text files, only.

For many files, this requires that they be encoded. Encoding merely means that they have been reduced, in some fashion, to a 7-bit format. This can be successfully accomplished with a myriad of programs. Many such programs can be found on-line, by searching for keywords like code, coding, encoding, unencoding and similar. Once the file is encoded, it can then be safely sent out over the Internet. In many cases you will not

This can be successfully accomplished with a myriad of programs. Many such programs can be found on-line, by searching for keywords like code, coding, encoding, uuencoding and similar. Once the file is encoded, it can then be safely sent out over the Internet. In many cases you will not

have to be concerned with encoding a file, as your server may do it for you.

NOTE! Do not confuse encoding with encrypting. Encrypting is totally different. Encrypting is a security measure. Encrypting means scrambling in a secret code that can only be unscrambled (unencrypted) by the proper program and/or encrypting codes.

Once an encoded file arrives at it's destination, it must be unencoded. This means that it has to be converted back to the 8-bit format it was originally in. Otherwise, the recipient will just see a lot of code that looks like gibberish and hieroglyphics. It has been my experience that the file is sometimes merged into the text of the E-Mail, instead of being an attachment with the e-mail. Very often the file will be given a name different from the one that was sent, until it is unencoded. This all depends on your server or the sending service.

Again, the same programs that encode files can also unencode files. All you have to do is unencode the file. Once it is unencoded, you will have the file in it's original form.

Many Internet mail programs will unencode files, automatically. However, I also find that many on-line services do not unencode received files.

I use a program that is made for Windows, called WinCode. (I only use it to decode things. I do not encode the newsletter when I send it out. That is done by the service provider I mail it from.) There are also other programs out there made for different platforms and computers (MAC, UNIX, DOS, OS/2...), such as AppleDouble, GZIP, UUCode and many, many others.

Donald W. Lunsford was born in Boss, Missouri on April 26, 1938 to Aileen Nelson Lunsford and Donald Arthur Lunsford. Donald A. Lunsford, a minister, was pastoring in the community when Donald was born. Aileen Nelson was a daughter of long time residents of Dent County Missouri. Her parents, Jess and Docia Nelson, were farmers and were the Post Masters of Boss. A number of rural routes went out from that post office. Donald A. was the son of William Henry and Sara (Hedrick) Lunsford. William and his sons were timber and lumber workers.

Donald was a typical preacher's kid. His early years were spent in and around Dent County Missouri where his father pastored a number of churches. Donald spent most of his summers on the farm with his grand parents in Boss. This continued on through high school.

When Donald was in the fifth grade the family made a dramatic move out of the state of Missouri to Metropolis, Illinois, home town of Superman. It was there that he caught the first sight of his future wife, Beverly Stratemeyer. She was six years old. She was of German descent. Her great

have to be concerned with encoding a file, as your server may do it for you.

NOTE! Do not confuse encoding with encrypting. Encrypting is totally different. Encryption is a security measure. Encrypting means scrambling in a secret code that can only be unscrambled (unencrypted) by the proper program and/or encrypting codes.

Once an encoded file arrives at it's destination, it must be unencoded. This means that it has to be converted back to the 8-bit format it was originally in. Otherwise, the recipient will just see a lot of code that looks like gibberish and hieroglyphics. It has been my experience that the file is sometimes merged into the text of the E-Mail, instead of being an attachment with the e-mail. Very often the file will be given a name different from the one that was sent, until it is unencoded. This all depends on your server or the sending service.

Again, the same programs that encode files can also unencode files. All you have to do is unencode the file. Once it is unencoded, you will have the file in it's original form.

Many Internet mail programs will unencode files, automatically. However, I also find that many on-line services do not unencode received files.

I use a program that is made for Windows, called WinCode. (I only use it to decode things. I do not encode the newsletter when I send it out. That is done by the service provider I mail it from.) There are also other programs out there made for different platforms and computers (MAC, UNIX, DOS, OS/2,...); such as AppleDouble, CSIE, UUCode and many, many others.

MUGSHOT
This section will spotlight a family member and/or relative each issue.

Donald W. Lunsford was born in Boss, Missouri on April 26, 1933 to Aileen Nelson Lunsford and Donald Arthur Lunsford. Donald A. Lunsford, a minister, was pastoring in the community when Donald was born. Aileen Nelson was a daughter of long time residents of Dent County Missouri. Her parents, Jess and Docia Nelson, were farmers and were the Post Masters of Boss. A number of rural routes went out from that post office. Donald A. was the son of William Henry and Sara (Hedrick) Lunsford. William and his sons were timber and lumber workers.

Donald was a typical preacher's kid. His early years were spent in and around Dent County Missouri where his father pastored a number of churches. Donald spent most of his summers on the farm with his grand parents in Boss. This continued on through high school.

When Donald was in the fifth grade the family made a dramatic move out of the state of Missouri to Metropolis, Illinois, home town of Superman. It was there that he caught the first sight of his future wife, Beverly Strakemeyer. She was six years old. She was of German descent. Her great

grand parents came from Germany and settled to farm the rich Little Egypt farm land of Southern Illinois. Beverly was a brilliant and beautiful girl with great musical talent. Donald and Beverly married in a double wedding ceremony with Donald's brother Larry and Beverly's best friend Patsy Richardson, July 31, 1960. After Donald had attended Southwestern College in Waxahachie, Texas he entered the evangelistic ministry. Donald had already recorded a 45 rpm record. When Beverly combined her keyboard and singing talents with Donald they were quite a team. In 1961 they decided to settle in for awhile and pioneered Westside Assembly, now Cornerstone Church in Evansville, Indiana. In August 1963 they went on the road as "The Singing Lunsfords." They were signed to a recording contract with the Benson Company in Nashville in 1964. By 1971 they had traveled throughout the United States covering all the continent and recording seven albums. They are all now obsolete and out of print except for a few that are stored away in a closet.

November 17, 1969 a son was born. He was named Mark Dwayne Lunsford. In July of 1971 the Lunsfords received an invitation from First Assembly of God in Colorado Springs, Colorado to be their pastor. This proved to be a commitment of over nine years. While there a daughter Angela Dawn was born August 5, 1973. Donald was also elected to the second highest position of leadership in his district. Assistant Superintendent of the Rocky Mountain District of the Assemblies of God. The district covered the states of Colorado and Utah. This position also placed him on the national board of General Presbyters. In 1977 Donald was listed in "Who's Who in Religion in America," and "Who's Who in the South and Southwest" (1988/89). In The church in Colorado thrived under the Lunsfords leadership and was listed for six years in the top 100 churches in the Assemblies of God. In July of 1980 the Lunsfords accepted a call from First Assembly of God in Clearwater, Florida. They moved from the mountain to the seashore and served that church until May of 1993 when Donald was elected to the highest position of the Florida District. The position of District Superintendent put him in supervision of 1,140 ministers and 340 churches. Donald retired from the position in June of 1996 to become the president of Church Services International, Inc. a church service and missions organization. This position and responsibility again permits the Lunsfords to travel extensively throughout the US and around the world. The mission statement is "Connecting resources to need."

The Lunsfords have just been to Nashville discussing a new recording project. In addition to singing, playing and song writing Beverly has formed "Beverly Music" which produces sound tracks for church worship in General MIDI, cassette and CD format. These projects are presently in the production stage. The first product should be available in January 1997.

Mark Lunsford married Anne Waugh of Tampa in 1992 and is now Minister of Music at Cornerstone Church in Nashville, Tennessee. He has just performed on his first recording. A project for Christmas called "The Greatest Gift." There are other well known artists on the project, The Imperial, John Starnes, Walt Mills, Beau Williams, Southern Crossing, Mark Lunsford and Anthony Burger. The project will be in stores October 21st on the Wright Music label.

Daughter, Angela Lunsford Malz is a music teacher in public school in Mooresville, NC and is also music director for her church. She and her husband, Craig Malz married in 1994 and lived in Japan where Craig worked as an engineer for the parent company of Panasonic and served as lay missionaries. They both communicate well in Japanese.

FAMILY SUPPORT
Looking for answers? Connections? Information? Then this is the place! Feel free to ask any and all questions here. Hopefully, you will get an answer from someone!

Old genealogists never die, they just loose their Census. -- Unknown.

I, Terry Lunsford (GOMN@JUNO.COM) have new info about my branch! I have it that my ggg-grandfather was a Cornelius S. Lunceford. He is said to have been born around 1820 and died in 1882, Butts Co., GA. His burial site is unknown. Can anyone give me any information on Cornelius? If I can verify that he was a "CE", I will be able to pinpoint where my family switched from "CE" to an "S." I can all ready pin-point the "C" variation. All of his kids used the LUNCFORD spelling, it seems, except for my gg-grandfather, David Evans Lunsford.

Peggy Hein (phein@worldaccess.com) is looking for any information (descendants or ascendants) of Robert Lunsford. Robert was born in Lake Co., TN around 1900. He married a Gettie Perminto. I show a number of Roberts, but none I can center on 1900.

Edwin C. Murray (who is no longer on-line) was looking for help in regards to an Alice Lunsford. Alice married a Joshua Brown in the early 1700's, and likely in VA. They had a daughter they named Sece Brown. Sece married a William Kendall. He would like any and all info about Alice and who her parents were. Oddly enough, Denise Mortoff (Stonyridge@thegrid.met) also wrote, looking for assistance on the same people! Denise says the daughter was Cicy, but it was often spelled as Seese, Sece or Seece. She says that Cicy and her husband, William Kendall, lived in Nelson Co., KY. She also notes that Alice and Joshua married in Stafford County (KY?).

Shirley Shuff (SShuff619@Aol.Com) is looking for information on the line of John B. Luntsford, of VA. He married a Nancy Hight b1832 and had a daughter named Mary Elizabeth who married a William P. Pickens in 1884 MO. They had a son named John L. Pickens. I all ready have a connection, here! See the "Family Reunion" section! I all ready know that she and Les Pence Jr. (LPencejr@Aol.Com) both connect in through the Hight family. I have all ready put them in touch with each other. They had same/similar names, but spellings and dates were not the same. I have yet to hear if they worked it out.

Ron Brooks (ron.brooks@windmill.com) is looking for Rueben Barnes b1820 KY and Barbara Lunsford or Lunceford, b09/15/1823 VA. They were married 7/5/1863 KY (maybe Polk Co.). They had a daughter, Mary Jane Barnes, who married an Andrew Lester Hook, son of Robert Ransom Hook. Mary and Andrew moved to TX in the 1870's.

Cuzzin Jennifer Elam (jelam@nash.mindspring.com) is looking for info on Hiram Lunsford and Lyndia Hollingsworth. They were married in Clay Co., KY in the 1820's. Hiram was b1805, in NC (probably Ashe Co.). Could this be the same Hiram in the Bascom Lamar Lunsford line? If so, he may be a twin to Allen! See "Out on a Limb!" I have all ready put Jennifer in touch with Donna Jones (DonnaMaeJ@Aol.Com) and Marilyn Larsen (MLarsen2@Aol.Com). They are sisters and are working together. Donna was looking for Hiram b1824 KY (3rd issue). I know she suspected another Hiram born around 1800, so I think we may have a good lead in this one! Let me know!

Cuzzin Michael Blake Lunsford (MySharrona@Aol.Com) is looking for any connections for his branch of the tree. His father is Donald Earl Lunsford, Jr., grandfather Donald Earl Lunsford, Sr. and great-grandfather John Lunsford. John married a Ella Ratcliff and they had 6 kids, Steve, Jasper, Garnett, Goldie, Margaret and Donald. I show no possible connections.

Connection made to others? Connections made in your own branch of the Tree? Lets talk about it here!

A connection has been made! John C. Foster (JCF456@Aol.Com) and mpowell@infoave.net (name unknown) both connect back to the same Swanson Lunsford that is buried on state grounds in SC! I have put them in touch with each other to see if they can assist one another! Let me know if you guys make progress!

There is also an instant reunion between Denise Mortoff (Stonyridge@thegrid.net) and Edwin C. Murray (no longer on-line). They both wrote me at about the same time looking for info on the same people, Alice Lunsford and her family! See the Family Support section!

John Lunsford (2223 Alhambra SW, Albuquerque, NM 87104) wrote with information for William "Bill" Lunsford (75243,1614@CompuServe.Com), in reference to his queries in the 2nd & 4th issue about David L. Lunsford, b 1818, who married a Caroline Bannerman in 1847. John says that David is the son of Rueben Lunsford (b1793, Jr. -- who had a brother named Lavender) and Elizabeth Clemmer. He says Caroline was a Vannerman, and she signed the marriage certificate as Venamon. She had a brother, William, who signed a will as Vannerman. He also mentioned -- as if psychic -- that David had a brother, John B. Lunsford, b1817, who married a Nancy Hite -- surely the one Shirley Shuff (SShuff619@Aol.Com) is looking for, but has as a Luntsford (see "Family Support")!

He also sent info from Williams' query in the 2nd issue, on his lineage in general. He says that Franklin David was b2/28/1861 (not 1862) in Mt. View, MO (not Iowa). I am not sure if this was an error, but he

Cousin Jennifer Elam (JelamMason.mindspring.com) is looking for info on Hiram Lunsford and Lynda Hollingsworth. They were married in Clay Co., KY in the 1820's. Believe It or Not
Got a good story involving kin folk? Share it with us! Funny, sad, weird or interesting stories -- or lore -- will be shared here.

In exploring our family history, I have noticed one thing for sure. Lunsfords breed like rabbits! And very often with multiple mates. I was joking around with Cindi McClain (JGYE23A@Prodigy.Com) about this. The way I phrase it is that our ancestors "couldn't keep it in their pants." She called then the "Randy" Lunsfords, using an old term.

However, she also surprised me by pointing out that this was not a trait restricted to the males of the family! Not only did she point out multiple marriages for females and that the females had to birth all those kids, but she named one specifically, from her line.

Mary Elizabeth Lunsford, b1833 married a Frances Lafayette Seabolt, b1837. They had 9 kids. It seems that she also had at least 2 (maybe 3) more kids by an Andrew Jackson Dockery, whom she was never married to!

So, not only were the male "Randy" Lunsfords unable to keep it in their pants, but the females were unable to keep it out of their pants! Maybe we can call them the "Randi" Lunsfords?

ARCHIVES
This is a list of available files and things that I have. They are free for the asking, as long as they can be sent attached to E-Mail. Text files can be sent in multiple formats. If you want them sent them by U.S. Mail, the cost will be $2 for printed files or $3 for photocopied items. Files can also be sent on a 3.5 inch floppy disc, with as many files as you want. $4 per disc. These fees are to cover costs.

NOTES: This is the predecessor to this Newsletter. It is a text file is several pages of topical headings about the many things we shared early on. Stories, lore, facts and so forth. Final update 060196.

E-MAIL LIST: This is a listing of all-known E-mail addresses for On-Line Family, kin and interested parties. It tells their E-Mail addresses, real names and locations -- as much as is known. It is categorized by service provider (AOL, CompuServe, Prodigy, etc.). Updated regularly.

GUNNELLS TEXT: This is a genealogy file I got from GUNNELLS2@AOL.Com. It is very well done and includes some Lunsfords. It has not been updated since I received it in February, 1996.

SIR THOMAS ARTICLE: This is an article from the Virginia Historical Magazine about Sir Thomas Lunsford. It is very interesting and 9-pages long. It details much about Sir Thomas, his family and his military career under King George I. This is only available via Snail Mail (U.S. Mail) (photocopied).

ARCHIVES

This is a list of available files and things that I have. They are free for the asking, as long as they can be sent attached to E-Mail. Text files can be sent in multiple formats. If you want them sent them by U.S. Mail, the cost will be $2 for printed files or $5 for photocopied items. Files can also be sent on a 3.5 inch floppy disc, with as many files as you want. $4 per disc. These fees are to cover costs.

NOTES: This is the predecessor to this Newsletter. It is a text file is several pages of topical headings about the many things we shared early on. Stories, lore, facts and so forth. Final update 080196.

E-MAIL LIST: This is a listing of all-known E-mail addresses for On-Line Family, kin and interested parties. It tells their E-Mail addresses, real names and locations -- as much as is known. It is categorized by service provider (AOL, CompuServe, Prodigy, etc.). Updated regularly.

CHRONICLE TEXT: This is a genealogy file I got from CHRONICLE@AOL.Com. It is very well done and includes some Lunsfords. It has not been updated since I received it in February, 1996.

SIR THOMAS ARTICLE: This is an article from the Virginia Historical Magazine about Sir Thomas Lunsford. It is very interesting and 9-pages long. It details much about Sir Thomas, his family and his military career under King George I. This is only available via Snail Mail (U.S. Mail) (photocopied).

FAMILY FILES: I can export GEDCOM compatible files. If you have Family Ties, I can send you the actual files. I have started a file on everyone who has sent me any information about their branch. I have them titled by E-Mail address, so ask for specific files in that manner. If files have been connected and merged, I will need specific names to locate the file you want. I can also send printed reports. These reports merely show name, DOB/DOD of all persons in a given file. I can also print ascendant and descendant trees, if you prefer. These show the same info, but connect up in the classic tree format (they do not necessarily show everyone in the file).

NEWSLETTERS: Back issues are available upon request. If you know of anyone who may be interested in this Newsletter and does not have an E-Mail address, or a Computer, subscriptions are available! $2 for any single issue. $8.75 for 5 issues. $15 for 10 issues. A great gift idea! If you wish it mailed on a 3.5 floppy disc, add $.25 per issue. This Newsletter is also available for download on-line! On AOL go into the GENEALOGY FORUM and look in the NEW UPLOADS and/or the NEWSLETTER libraries. On CompuServe go into THE GENEALOGY FORUM and look in the INFO ON SURNAMES library. Sorry, but Prodigy does not allow uploads. It may take a few days before new issues appear.

NAMES LIST: This is a list of all names that I have currently included in one family tree or another (see Family Files, above). If you get this list and do not see your name, or names from your branch, it is either because you haven't provided me with branch info, or I haven't got around to including your info at this time. This is a database file using Microsoft Works 4.0. Updated regularly.

NEAT STUFF: These are fun or useful little programs and things I have found on the Internet. These programs are shareware (registration and possible fee required) or freeware (freebie!). Programs are all for PC's, except for one (GZIP). If you have any neat little programs/files, send them to me, or let me know about them! By obtaining these programs from me you are NOT buying them or registering them.

TALENT SHOW
This section will highlight family talent, as much as possible! If you have anything you can present here, send it to me! Poems, details about ones talents (an article), art (in the form of scanned images) and so forth!

As promised last issue, here is the poem I wrote around 1982 (see issue #3), that recently ranked in the top 3% in a national contest. I have re-adjusted the format of the poem, to be more like it's original form (the contest only allowed 20 lines, so I had to compact it for the contest). The poem is entitled.....

ROCK AND ROLL IF.

Well,
If I had the time, if I had the money
I'd take you away and rock roll you, honey!

Yeah,
Two Rock'n Roll stars -- can't you just see it?
Playin' all night long -- can't you just feel it?

Now,
We have potential... We have ability ---
We could tour the world -- see all there is to see!

Meet!
All kinds of people! See all kinds of cities!
We would ride the clouds -- sing the
do-wah-ditties!

Oh,
We would have our fun, and we'd play for the
Queen!
We would party the world, like it has never seen!

But,
We have not the time... and there is no money,
Which to you and me, is not at all funny!

Ah,
We still have our dreams! We have our lives to
live...
Hopeless does it seem, but only if we give!

So,
We do what we do, while hoping for the best!
We will strain and strive-- until we pass the
test!

There.
That's the way it is, the way it's got to be...
And so I'll love you, hoping you'll love me!

`Cause,
If I had the time, if I had the money,
I'd take you away, and rock roll you honey!

I will continue this section as long as I have some "talent" that I can present in this newsletter. Paintings and Photographs. Drawings. Poems. Music (as attached files). Narratives about one's talents. Photo's of artistic creations. Any talent can likely be detailed or presented her, in some fashion.

If toast always lands butter-side down, and cats always land on their feet, what happens if you strap toast on the back of a cat and drop it?

GREAT EXPECTATIONS
Here are details of what is expected in the next awesome issue!

A town called Luneville in France? Did three Lunsfords do the original survey of Springfield, IN? Did one of our ancestors beat up Jesse James? A high school basketball star! A Lunsford and a Lunceford on TV? The Wiley Lunsford branch! Mugshot of Lee Roy Lunsford! And something new, SIGHT & SOUND! The true value of our elders! All this and more!

GERIATRIC SUPPORT

BASCOM LAMAR LUNSFORD CD!: "Ballads, Banjo Tunes and Sacred Songs of Western North Carolina" is the title of this 15-song Compact Disc. It

includes "Old Mountain Dew." Order yours while they are still in print! CASSETTE: $14; CD: $18!

COLLECTORS CARDS: 100 all-different sports/non-sports cards. Includes baseball, fantasy art and movie cards. 1985-present. Only $5 (that's only 5-cents each)!

LP ALBUMS: Assorted vinyl 33 1/3 speed albums. Name specific album, artists or music types. All are in original cover and with little, if any, scratching. $4 for one! $3 each for two! $2 each for 4 or more!

COMICS: Grab bag of six comics from five different publishers -- including Marvel and DC. Not only that, but you will get at least one from the 1970's and one from the 1980's. All comics are in VF to NM and stored in plastic bags. $10 each!

SAMPLER GRAB BAG: A number of single items, or sets, from my various collections. Cards, coins, stamps, LP's, Cassettes, books, magazines, figurines, comics, 45's and so forth. Like surprises? Get this! At least 5 different items per grab bag! There is no telling what I might send you! $10 each!
ANCIENT COINS: This is a bag of genuine ancient, uncleaned, unidentified Roman coins! Most coins date between 250 A.D. to 400 A.D. and range in condition from Poor to Fine (based on a random sampling)! You can also get a bag of Medieval Coins found in a 50-mile radius around Jerusalem! Specify which you prefer! Bag of 15, $40! Bag of 30, $65! Bag of 100, $200!

MARRIAGE INDEX: This is the marriage index of Ohio County, KY. It contains 21,487 marriages from 1799 to 1963. It is a 2-volume set (1799-1905 & 1906 - 1963). They can be purchased separately for $45 each, or as a set for $75.

THE ORIGINAL CHRISTMAS GIFTS! The three wise men gave rare gifts to the baby Jesus. Gold, Frankincense and Myrrh. This is a wooden treasure chest that contains a bag of genuine Frankincense, a bag of genuine Myrrh and a gold-plated star-shaped charm, on a silk cord! What an excellent Christmas gift this would be! Only $28 each!

COMPACT DISCS: The following Compact Discs (CD's) are brand new, never opened and undamaged, in anyway. CLUB CUTZ by Various Artists, 1996, includes MACARENA. MEDUSA by Annie Lennox, 1995. That is all of the issues so far. #7 is ready to go, but for the MUGSHOT and will be sent out soon.

The group is curently at about 500 recipients and the newsletter is also available on America On Line, Compuserve and The Microsoft Network, in their Genealogy Forums. I also have a few snail mail sunscribers (not free). I fugure at least 1,000 people see each issue.

I act as a moderator. I organize and collect the data I am sent. The goal is to put all of our branches into one great tree.

If your search results did not turn out as you hoped, try the following:

- In general, search on synonyms. Also double-check your spelling to make sure you didn't mistype the words you are trying to locate. Another option is to try a less restrictive request. For example, rather than searching on "census records Cook County Illinois," you could try the more general "census Illinois."
- For names, be sure to try alternate spellings. Also try searching only on a last name rather than a full name.
- When looking for states, be sure to search on both the abbreviation and spelled-out name. If you are searching for a county, leave off "County" and only search for the county name. Also remember that the boundaries and names of counties, states, and countries have changed over time, so you may need to search on either an older or more modern name to find what you are seeking. Your local library or genealogy society may have maps that can help you determine if

this is the case for the locations you are researching.

- If you received too many matches, try a more specific search. For example, if you are searching for a name, add a location if it makes sense to do so. Or, instead of searching on a state, try searching on a county within that state. Sometimes looking at the results of your search can help you decide how to narrow it down.

Hello All,

I've been visiting back and forth with a few of you in the past regarding my LUNSFORD connections.

I seem to be stuck on my line with a Calvin LUNSFORD & wife Mary. I don't have any dates or states on these people. All I do have is one of their sons (Ed_mson "Ed" Lunsford b. near VanBuren Arkansas m. Rachael Nowife) and a nickname for one of their daughters (Chich).

The purpose of this posting is to try and help those of you that are having just as much trouble with your Lunsford line.

About a year ago I received a letter from a Hal Lunsford with a lot of interesting information. Eventhough I can't make the connection with his line yet maybe someone out there will be able to get some help from his information.

He sent me a copy of a letter from 1963 to Dr. Marby Lunceford, from a J.K. Lunsford. Below is parts of that letter.

"During our short conversation you brought up a very interesting light concerning the difference in spelling of our family names. You suggested that you could remember your grandfather mentioning that he remembered when the spelling of the family name was changed.

I am enclosing a copy of what I have on our family tree. It might be of interest to you, and you might pick up and recognize some of the common names of your forefathers. I think that Great-Great-Grandfather Charnic could very well be the father of all Lunsfords residing in Georgia and Alabama.

My Grandfather John lived with us during 1924. During this stay he gave me this record of our family. He said it has come down from father to son to him. It could very well be that this is the only record in existance. My father, grandfather and all who preceded him were farming people. The family church was Methodist. They seemed to love their church relation but did nothing to contribute to its growth. My father and grandfather were good family men, very poor, not prone to bad habits to incur a bad family name. Neither drank, smoked, or prayed in public to my knowledge.

One unusual thing told me by my grandfather during his life-time was that there had never been a divorce in his direct family lineage to date. My father told me that his father and grandfather were very poor managers or providers. The mothers were the great providers for the family's needs."

Attached to this letter was an additional page. Below is all of that page.

HISTORY OF FAMILY NAME

During the year 1776 at the arrival of General Cornwallis to America was the beginning of the Lunsford name in America.
There were five brothers belonging to his Army. The first night after anchor they jumped overboard and swam to land; there they joined Washington and gave their names Kimrod, Charnic, Daris, Minic, Jonah. They were at the gaining of the Independance.

Kimrod was the father of our family, he raised one son, whose name was Charnic. Charnic was the father of eight sons, James, Stephen, Joseph, Spear, John, Patton, Nathan, William.

Joseph was the father of our family, he raised eight sons, James, Franklin, William, Greene, Stephen, Hardy, John, Pinkney. (All served as soldiers in the Confederate Army, Civil War)

John was the father of our family. He was the father of five sons. James, Monroe, Robert, George, Bartow.

Robert was the father of our family. He raised six children, Benjamin, Wallace, Olon, James, Louis, and Paltire.

Sir Thomas Lunsford

Among the cavaliers who came to Virginia in 1649 was Sir Thomas Lunsford, knight baronet. He was knighted December 28, 1641, and made lieutenant of the Tower of London. On the 27th of December, while walking through Westminster Hall with twenty or thirty of his friends, and meeting a band of appretices, he and his companions drew their swords and wounded twenty or thirty of them and denounced them as "Roundheads" because of their fashion to cut the hair round. He married, it seems, three times. His second wife was Catherine, daughter of Sir Henry Neville, of County Berks, and his wife Elizabeth, daughter of Sir John Smith, of County Kent. By her he had a daughter, Elizabeth, born in 1642, who in 1667 married Daniel Norton of County Berks, Philippa, who died young, and Maria, born in the Tower of London, who in 1665 married Thomas Collier, a brewer of Shoe Lane, London. (Neill's Virginia Carolonum, p. 381.) There was a William Lunsford, Esq., probably a son, mentioned in the land grant given him on his arrival in Virginia.

This grant, dated Oct. 24, 1650, was for 3,423 acres "lying upon a Bay on the south side of Rappahannock river." The consideration was his transportation of sixty-five persons, who are named in the records as fallows:

S^{r} Thomas Lunsford Kn^{t} Bar^{t}., the Lady Lunsford, Mrs. Elizabeth Lunsford, Mrs. Philippa Lunsford, Mrs. Mary Lunsford, Wm. Lunsford Esq^{rs}, M^{r} Foster, M^{r} Henry Benskin, M^{r} Bird, M^{r} Cook, M^{r} Warren, M^{r} Cartwright, M^{r} David Phillips, M^{r} Wm Caldwell, M^{rs} Peirce, M^{rs} Ann Bradley, M^{r} Thomas Marshall, James Randall, Robert Beard, Edmond Roberts, William Bush, Valentine Harvey, Thomas Aldridge, Thomas Davis, Francis Roberts, Richard Millard, Richd Greene, Isabella Maidhone, John Butcher, John Beech, Nicholas Menlgo, John Madley, Nicho. Church, Antho: Griffith, Wm Fletcher, Richard Holdrich, Cassanamjius Smith, John Williams, George Weeden, Edmond Hawkes, John Bradbury, Thomas Menloe, Thomas Hodskins, William Velley, Tho. Maidstone, Yarmer Jones, Mrs. Jones, Jones his child, Jones his child, Robert Hallowes, W^{m} Griffeth, W^{m} Copeland, James Wheafsby, Old Buck, Wm Harphy, Christopher Godwon, Eliz^{a} Scotchwoman, Martha, Isaac Cavalier, Gregory, Dandall, our called Indian, Penelope Harris, M^{rs} Maidstones child.

A pedigree of the Lunsfords in the British Museum mentions that Lunsford "sould all and went into Virginia, where he married his third wife." He was made by Sir William Berkeley lieutenant-general of the Colony and a member of the Council. (QUARTERLY, IV., p. 202.) He died before 1656, as in that year the Dame Elizabeth Lunsford appears in the Lancaster records as transacting business in her own name. She was the widow first of Richard Kempe, Esq., secretary of state, and after Lunsford's death, married Major-General Robert Smith, of Middlesex county.

"I Thomas Stegge do hereby acknowledge that I have receaved of the Lady Lunsford Twoe Thousand pounds of Tobaccoe & Caske w^{ch} is in full of all Accompts between M^{r} John Calvert & M^{r} Richard Kempe, as witness my hand this first of December 1656.
"Recorded 7 ^{o} Jan A^{o} 1656 Thomas Stegge."

Sir Thomas Lunsford was buried near *Greenspring*, the residence of Sir William Beckeley, and there was a monument there to the joint memories of Thomas Ludwell, Esq., secretary of state,

Sir Thomas Lunsford

Richard Kempe, his predecessor in the secretary's office, and Sir Thomas Lunsford. This tombstone is now in the churchyard at Williamsburg, whither it was carried some years ago. The Lady Lunsford, who survived him, was his Virginia and third wife. In the Lancaster county records occurs a deed, dated April 28, 1656, from Dame Elizabeth Lunsford to her loving friend Richard Lee, for fifty acres on Rappahannock river, "being part of a dividend assigned me by Sam'l Abbot." She had one daughter, Catherine, so called by reason of the custom of our ancestors of naming the eldest child after the death wife. In the records of the General Court appears this entry some years latter:

12th of October 1670.--

Governo^{r} S^{r} Henry Chicheley, Tho. Ludwell, Secr, Edw^{d} Diggs, Majo^{r} Gen^{ll} Smith, Theo. Bland, Coll Swann, Lt Coll Parke, Coll Brown, Coll Jennings, Tho. Ballard.

*** ***

Whereas S^{r} Thomas Lunsford Knt Barront decd was by pattent possessd of a tract of land conteyning about three or foure thousand acres of Land lying in the freshes of Rapp river commonly called portobacco and whereas at this Court M^{rs} Katherine Lunsford one of the Daughters of the said S^{r} Thomas petitions this cort that she might be permitted to seat such p^{t} of the said land in her owne right as this court should thinke fitt to allow The Cort doth thereupon ord^{r} that she doe seat and possesse herselfe of some pt of the said land that may not prjudice the Indians now liveing upon pt of the said land And whereas there are three daught^{rs} in England by a form^{r} venture who hath not made any claime to the said land It is ordrd that if they doe not make their clayme to the sd land according to Act, that then the said Katherine to have hold possesse and enjoy the same to her and her heirs forever and the petition of the said Katherine ordrd to be recorded.

Madam Katherine married, first, Peter Jennings, attorney-general, and, second, about 1652, Hon. Ralph Wormely, Esq., secretary of state, and her death in 1685 is thus recorded in the parish register of Middlesex county:

The Honorable Lady Madam Katherine Wormeley wife of the Hon^{ble} Ralph Wormeley Esq^{r} Departed this Life 17th of May 1685 & was buried in the Chancell of the Great Church between ^{ye} Hon [Sir Henry] Chicheley & * *

She had issue, by Wormely, two daughters, (1) Elizabeth, who married Mr. John Lomax, son of Rev. John Lomax and Catherine Gray his wife, (2) Catherine, who married Gawin Corbin, but left no issue.

"Mr. John Lomax & M^{rs} Elizabeth Wormley were Married June ^{ye} 1st 1703" (*Middlesex Register*).

There is of records in Essex county a deed, dated April 8, 1707, from Gawin Corbin, releasing his right to "John Lomax of the county of Essex, in the Colony of Virginia, gentleman, and to Elizabeth Lomax, his wife, late Elizabeth Wormeley, daughter of Ralph Wormeley, Esq., deceased," in an island of 500 acres included within the land called Portabago formerly granted to Sir Thomas Lunsford, knight and baronet, on October 24, 1650. The deed recites that Gawin Corbin and John Lomax and Elizabeth his wife "have actual possession of said land," and that Gawin Corbin "has a life interest in a moiety of the same, after whose death the reversion thereof

Richard Kemp, his predecessor in the secretary's office, and Sir Thomas Lunsford. This tombstone is now in the churchyard at Whitechapel; whether it was carried some years ago. Whereas Mr Thomas Lunsford Late Barronet died was by patinet possesd of a tract of land containing about three or foure thousand acres of Land lying in the freshes of Rapp river commonly called portobacco and whereas at this Court Mrs Katherine Lunsford one of the Daughters of the said Mr Thomas petitions this court that she might be permitted to sett such p[t] of the said land in her owne right as this court should think fitt to allow. The Court doth thereupon ord[d] that she doe sett and possess herselfe of some pt of the said land that may not prjudice the Indians now living upon pt of the said land And whereas there are three daught[rs] in England by a former venture who doth not make any claime to the said land It is ord[d] that if they doe not make their clayme to the sd land according to Act, that then the said Katherine to have hold possess and enjoy the same to her and her heirs forever and the petition of the said Katherine ordrd to be recorded.

Madam Katherine married, first, Peter Jennings, attorney-general, and, second, about 1682, Hon. Ralph Wormeley, Esq., secretary of state, and her death in 1685 is thus recorded in the parish register of Middlesex county:

The Honorable Lady Madam Katherine Wormeley wife of the Hon[ble] Ralph Wormeley Esq[r] Departed this Life 17th of May 1685 & was buried in the Chancell of the Great Church between 2[d] Hon [Sir Henry] Chicheley & * * *

She had issue, by Wormeley, two daughters, (1) Elizabeth, who married Mr. John Lomax, son of Rev. John Lomax and Catherine Gray his wife; (2) Catherine, who married Cawin Corbin, but left no issue.

"Mr. John Lomax & Mrs Elizabeth Wormeley were Married June 2[d] 1703" (Middlesex Register).

There is of records in Essex county a deed, dated April 8, 1707, from Cawin Corbin, releasing his right to "John Lomax of the county of Essex, in the Colony of Virginia, gentleman, and to Elizabeth Lomax, his wife, late Elizabeth Wormeley, daughter of Ralph Wormeley, Esq., deceased," in an island of 500 acres included within the land called Portabago formerly granted to Sir Thomas Lunsford, knight and baronet, on October 24, 1650. The deed recites that Cawin Corbin and John Lomax and Elizabeth his wife "have actual possession of said land," and that Cawin Corbin "has a life interest in a moiety of the same, after whose death the reversion thereof

is the proper inheritance of the said John Lomax and Elizabeth his wife, late Elizabeth Wormeley, in fee simple."

Issue of John Lomax and Elizabeth Wormeley: Lunsford, born Nov. 5, 1705; Catherine, born Oct. 5, 1707; Susanna, John, Frances. Lunsford Lomax married Mary Edwards, daughter of William Edwards,* of Williamsburg, June 14, 1729. The ceremony was performed by Rev. James Blair at Mr. Ludwell's (*Greenspring*).

Thus, through the Lomax family and its intermarriages, Sir Thomas Lunsford has numerous descendants in Virginia, among whom may be mentioned Lunsford Lomax Lewis, Ex-President of the Supreme Court of Appeals of Virginia. (See *Virginia Magazine*, Vol. I., and *Lomax Family*.)

***William Edwards resided more often in Surry where his ancestors had long been seated.**

This is the simple home page of **Kurt Rongey** (son of **Martha Lunsford Rongey**). It has a link to a bio of him. **Kurt** is musically inclined and has previously released an independent album (Book In Hand) and currently has an album out called XEN. XEN is a two man group comprising of **Kurt** and his friend, **David Bagsby**. They call their music "progressive rock," all though I would describe it more as electronic/new age/rock.

OUT ON A LIMB

Out On A Limb will present various branches of our great tree, as much as known. The data here has been provided by various family members, researchers and other sources. It is as accurate as is known. Please assist in correct any inaccuracies. The format that this data is displayed in is as created by the Family Tree Maker program (Broderbund Software). The data is displayed by numbered generations, starting with number 1, the oldest generation.

This is all I have for the descendants of **Lewis Lunsford, Sr.**

I presented the **Sir Thomas Lunsford** line once before. However, since that time, I have updated the information tremendously, thanks to a few folks and some data I obtained myself. The names in the line have a large amount of spelling variations on both surnames and first names, so the spellings noted below are not all of the "aliases" I have noted. They are just the names I have chosen to use as the primary spellings. It is my understanding that some spellings were/are Latin versions (many records were recorded in Latin). Such as **Ingram** being **Ingleramus**. Much like my name (**Terry**), could be listed as **Terencio** (Spanish). It is a matter of determining the right language. **Sir Thomas** himself is often listed as **LUNCEFORD** instead of **LUNSFORD**. However, everything I have leans towards **LUNSFORD** --

and quite clearly so, in my opinion. In fact, the graphic you see (above) is copy of his signature. As you can see, he spelled his name as **LUNSFORD**. I have seen some people leave out a generation (or include a generation, depends on how you look at it) right around/before **John Lunsford** and **Mary Sackville,** in each case. I have also seen the wrong wife attached to, what I consider, the wrong Lunsford (or generation). I have heard rumour that **Sir Thomas** can be traced back, off the **Lunsford** line, to quite a bit of royalty. If so, I would like someone to send me this data. I have also heard that one of **Sir Thomas's** daughters, and her descendants, can be traced down to **George Washington** (making **Sir Thomas** one of **Washington's** maternal grandfathers). I would also like to have this information. I have been recently corresponding with **Dave Davisson** (DCDavisson@aol.com) of late. **Mr. Davisson** says that he has been researching for over 20 years, including in the *UK*, and he has a whole new slant on **Sir Thomas**. He says that **Sir Thomas** was not a twin, he was born in 1602 and **William** , whoever he was, was not his son. He said that **Sir Thomas** had no sons. The lineage continued, but not through **Sir Thomas**.He has promised me some information and I will keep you posted. As I have noted before, **Sir Thomas** lore is shrouded in a lot of exaggeration, so this would not surprise me. I had always wondered why the **Sir Thomas Lunsford** crest was considered by Heraldic Societies, if his line continued through **William**. After all, they specifically keep track of such things, and have been doing so for centuries.

Descendants of **Ingram B. Lundresford**.
